MIL-P-12741B (MU)
AMENDMENT 2
24 JULY 1964

SUPERSEDING
AMENDMENT 1
17 JUNE 1964

MILITARY SPECIFICATION

PROJECTILE, 4.2 INCH ILLUMINATING, M335A1 METAL PARTS, FOR

This amendment forms a part of Military Specification MIL-P-12741B (MU), 17 March 1964.

Paragraph 3.6: delete in its entirety.

Paragraph 4.3.3.4, under Defect, MAJOR, 101.: delete and substitute:

"101. Concentricity of large outside diameter with press fit diameter including perpendicularity of front face of flange." "Gage"

Under Defect, MAJOR, 103.: delete "Summetry" and substitute "Symmetry".

Under Defect, MINOR, 208.: delete and substitute:

"208. Thickness of flange including disc seat." "Gage"

Paragraph 4.3.3.7, under Defect, MAJOR, 113.: delete in its entirety.

Paragraph 4.3.3.8, under Defect, MAJOR:

Add "109. Diameter of nose thread undercut if applicable" "Gage"

"110. Width of nose thread undercut if applicable" "Gage"

After paragraph 4.3.4.1.1: Add: "4.3.4.2 *Brazed joint.*" and renumber the following paragraphs:

"4.3.4.1.2" to 4.3.4.2.1"

"4.3.4.1.3" to 4.3.4.2.2"

"4.3.4.2" to 4.3.4.3"

Paragraph 4.3.6, delete and substitute:

"4.3.6 *Inspection equipment.* Index of Inspection Equipment List Number IEL-10521880 identifies the inspection equipment required to perform the examination and test prescribed herein. Such equipment shall be provided and maintained in accordance with MIL-I-45208. Equipment design shall be in accordance with the code designation on the applicable IEL. (Reference 6.3 for definition of coding format)."

Add Paragraph 4.3.6.1 as follows:

"4.3.6.1 *Alternative equipment and procedures.* The use of alternative inspection equipment and inspection procedures shall be in accordance with MIL-I-45208.

Paragraph 4.4.1.3, delete and substitute:

"4.4.1.3 *Strength of brazed joint.* In performing the mechanical load test, the body will be held by an approved holding fixture and the required load applied to the rear of the nose adapter. No deformation or separation should occur."

Paragraph 4.4.2, line 2: delete "4.3.4.1.3" and substitute "4.3.4.2.2."

Add paragraph 6.3 as follows:

FSC 1315

"**6.3 Inspection equipment lists.** Inspection equipment lists (IEL indicate the availability of inspection equipment designs by showing the number column of the list of inspection equipment (OO Form 1243–3) the numbers of drawings of existing equipment designs or codes as indicated in 6.3.1."

Add paragraph 6.3.1 as follows:

"6.3.1 *Inspection equipment lists codes.*

"*(AD) Army design.* Army designs are detailed drawings which depict completely all information necessary for the fabrication of the item of inspection equipment. The contractor need provide no design when an Army design is listed for an item of inspection equipment."

"*(SCD) Specification control drawing.* Specification control drawing depicts the minimum equipment requirements in outline. Descriptive, diagrammatic or pictorial form specify required performance or other characteristics. Such drawings are provided by the Government as an attachment to the pertinent inspection equipment lists. Approval of items of inspection equipment fabricated in accordance with these drawings is delegated to the inspection element of the Arm Procurement District administering the contract."

"*(CE) Commercial equipment.* Commercial equipment is inspection equipment that has universal application for a specification. It is comprised of items commonly used by industry and Government. Contractors are not required to furnish drawings of commercial inspection equipment, but a list of such equipment must be approved by the Government. Lists shall be submitted for approval to the inspection element of the Army Procurement District administering the contract."

"*(CD) Contract design.* Contractor designs are designs of inspection equipment for which the Government has assigned design responsibility to the contractor. Contractor designs shall be supported by detailed drawings which will depict all information necessary to completely fabricate, calibrate, and operate an item of inspection equipment. This requires that the necessary views, dimensions, materials, finish notes, operating and calibration instructions be properly depicted in accordance with approved practices to the extent that further calculations or clarification will not be required. Such designs shall be submitted for approval to Commanding Officer, Frankford Arsenal, Attn: 6340, Philadelphia, Pa. 19137."
