COMMERCIAL ITEM DESCRIPTION

STRAP, LEG-HOLDER, EXAMINATION TABLE

The General Services Administration has authorized the use of this Commercial Item Description.

This Commercial Item Description covers an examination table leg-holder strap suitable for use in the examination and treatment of female personnel.

Salient characteristics:

The examination table leg-holder strap shall be a durable, electrically conductive, inelastic, rubber strap suitable for holding and positioning legs in an elevated position on an examining table.

The nominal dimensions of the strap shall be 1 inch wide by 24 inches long. A metal ring shall be securely fastened to each end of the strap to facilitate attachment to a leg-holder rod or similar device.

The metal rings shall be constructed of a suitable corrosion-resisting metal or a metal with a suitable plating.

The strap shall meet the requirements of The National Fire Protection Association and be Underwriter's Laboratory listed.

The strap shall be free form cuts or gouges or other defects causing it to weaken. The strap shall be free of stains or other discolorations.

The strap shall be clean, free of oil, grease, dirt, or other foreign material.

Workmanship. The examination table leg-holder strap shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Pair (PR). One pair of examination table leg-holder straps, as specified, constitutes one unit.

AMSC N/A FSC 6530

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Tests. Tests shall be conducted to determine compliance with specification requirements. Where feasible, the same sample shall be used for the determination of two or more test characteristics.

Sampling. Sampling for examination shall be conducted in accordance with MIL-STD-105 and table I. The unit of product for sampling purposes shall be one examination table leg-holder strap as specified in this description.

TABLE I. Sampling for examination.

	Inspection level	AQL (defects per hundred units)
For visual examination		
Major defects	II	1.0
Total defects (Major and minor combined)	II	4.0
For dimensional examination	S-1	2.5

Examination. The leg-holder strap shall be examined to determine compliance with all requirements contained in this specification.

Classification of defects. Examination shall be conducted in accordance with the classification of defects listed in table II. Examination shall not be restricted to the classified possible defects below.

TABLE II. Classification of Defects.

Classification	Defect
Major	
101	Strap not inelastic and durable.
102	Strap not 1 inch wide by 24 inches long.
103	Strap does not have a metal ring securely fastened to each end of the strap.
104	Rings not made of corrosion-resisting metal or suitably plated metal.
105	Strap not free from cuts, gouges, or other weakening defect.
Minor	
201	Strap not free of stains or other discolorations.
202	Strap not clean and free of oil, grease, dirt, or other foreign material.

Metric products.

Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard 376, and all other requirements of this document are met.

If a product is manufactured to metric dimensions and those dimensions exceed the tolerance specified in the inch/pound units, a request should be made to the contracting officer to determine if the product is acceptable.

The contracting officer has the option of accepting or rejecting the product.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Number is covered by this document:

6530-01-064-1940

Ordering data. Intermediate/exterior package quantities, labeling, and marking must be specified in the contract and/or order.

INSTRUCTIONS: In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)*, and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation, was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

NOTE This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
