Unit.

For Size 1 - Bottle (BT). Shall be supplied as a powder in a commercially available bottle (vial) of sufficient capacity to hold 10 ml of Rehydrated Material. One bottle (vial), as specified, constitutes one unit.

For Size 2 - Package (PG). Shall be supplied as a powder in a commercially available vial of sufficient capacity to hold 100 ml of Rehydrated Material. One package containing 10 vials, as specified, constitutes one unit.

For Size 3 - Vial (VI). Shall be supplied in a 100 ml commercially available multiple dose vial. One vial, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.
