COMMERCIAL ITEM DESCRIPTION

MAGNIFIER, SINGLE LENS, FLIP-UP, PLASTIC

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers a single lens, binocular magnifier which is to be worn on the head and used to facilitate the assembly and repair of spectacle frames in the optical lab.

Salient characteristics.

The magnifier shall consist of a single, binocular lens mounted in a plastic flip-up unit which is attached to an adjustable headband. It shall be constructed so it can be worn over regular or safety glasses.

I. LENS.

Shall be a single binocular lens, with no center post, made of shatter resistant optical glass or optical grade acrylic.

Shall have minimum dimensions of 3-1/8 inches long by 1-1/8 inches wide.

The lens shall have a fixed magnification power of 2.25x, +/- 0.25x and focal length (working distance) of 8 inches, +/- 0.50 inches.

II. FLIP-UP UNIT.

The flip-up unit shall hold the lens securely in place and allow for easy lens removal and replacement.

Shall be constructed of high-impact ABS, non-reflective plastic.

The flip-up unit shall move in and out the users line of sight without removing the entire magnifier.

It shall remain in the up position or down position by itself, unaided.

AMSC N/A FSC 6515

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

III. HEADBAND.

Shall be constructed of high-impact ABS, non-reflective plastic.

Shall be continuously adjustable to accommodate varying head sizes to include the range from 6.5 to 8 inch diameters.

At a minimum, the headband shall be padded across the front inside portion, that portion which comes in contact with the forehead, with a foam padding.

Workmanship. The magnifier shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Each (EA). One magnifier, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Metric Products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard No. 376, and all other requirements of this document are met. If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch-pound units, a request should be made to the contracting officer to determine if the product is acceptable. The contracting officer has the option of accepting or rejecting the product.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/ contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder.

In addition, the offeror/contractor shall comply, and be responsible for compliance by its contractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Number is covered by this document:
