REQUIREMENTS:

Design:

Dimensions and configurations:	See figure 1. Lampholders shall be designed to accommodate two or three prong sealed beam automotive headlight lamps.
Construction:	The lampholder shall consist of a molded bakelite insulator housing and three contacts to which wire leads shall be securely crimped.
Contacts:	Material shall be phosphor-bronze silver plated.
Assembeled lampholder:	Shall be Cole-Hersee part number 3029 or it may be a commercial type used by automotive industry for connecting automobile head lamps of a similar change and contour complying with the requirements of this specification sheet.
Electrical rating:	250-volts, 75-watts.

TESTS:

First article inspection:	Shall be in accordance with MIL-L-970, except the shock, torque, and heat tests are not required.
Quality conformance inspection:	Shall be in accordance with MIL-L-970.

GENERAL INFORMATION: General information is as follows:

(a) Military part number: M970/17-1.
(b) National Stock Number: 6250-00-548-0377.
(c) Requirements formerly covered on Military Standard MS16655 and Drawing 9000-S6401-73939, pieces 26A and 26B.

Revision letters are not used to denote changes due to the extensiveness of the changes.
