MS36136-1

MS36136-2

MATERIAL: Items shall be made of steel in accordance with ASTM Specification A366 and other material that will produce a reliable and sturdy finished product.

DESIGN: MS36136-1 cutoff machine shall handle stock up to 50 mm diameter and 380 mm long. It shall have a built-in recirculating cooling system and a covered cutting compartment with waterproof lamp in the working area. The operating handle shall offer reliable manual down feed through work-piece. The machine shall accommodate 25 or 30 cm wheels; 5 cm cutting capacity; 57L (15 gal) recirculating system and a 3 hp motor counter-balanced with tension spring. Overall dimensions 82.5 cm W x 57.5 cm D x 141.5 cm H. Power requirements 220V AC, 60Hz 3-phase.

MS36136-2 cutoff machine shall operate in a range of 0-300 rpm, governed by a variable speed control. The machine has a built-in micrometer for cross-feed adjustments. The downfeed is counterbalanced, weights in increments of 25 grams can be added for adjustment. A 1/50 hp DC motor drives the unit, operating on 115V AC, 60Hz single phase power. Overall dimensions are 26.0 cm W x 15.8 cm H x 26.0 cm D.

All electrical components shall conform to the standards of Underwriters Laboratories, Incorporated.

NOTE: Items differing from this Military Standard by minor variations in design or dimensions are considered standard under this document, provided such variations do not affect performance and are not in conflict with the material requirements specified herein.

USER ACTIVITIES: ARMY - MD, DM
NAVY - MS

REVIEWER ACTIVITIES: ARMY - ME
