COMMERCIAL ITEM DESCRIPTION

CLOTH, CHEESECLOTH (WIPING PURPOSES)

The General Services Administration has authorized the use of this commercial item description in lieu of Federal Specification DDD-C-301.

Salient characteristics:

The cloth shall be a plain weave bleached cotton, rayon, or cotton and rayon blend with a minimum width of 20 inches and a maximum width of 50 inches. The cloth shall weigh not less than 0.5 ounce nor more than 2.5 ounces per square yard. The length of the cloth shall be at least 1 yard and not more than 10 yards. Each piece of cloth shall be labeled, ticketed, or invoiced for fiber content in accordance with the rules and regulations under the Textile Fiber Products Identification Act.

Certification: The contractor shall certify that the product offered meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards and quality assurance practices, and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Recovered materials. The manufacturer shall utilize recovered materials to the maximum extent practicable.

Packaging, packing, and marking. The packaging and packing shall be in accordance with normal commercial practice and shall assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with the National Motor Freight Classification and Uniform Freight Classification. Marking shall be as specified in the contract order.
