COMMERCIAL ITEM DESCRIPTION

PAIL, UTILITY, METAL, GALVANIZED, (ZINC-COATED)

The General Services Administration has authorized the use of this commercial item description in lieu of Federal Specification RR-P-35.

This commercial item description covers galvanized, metal, utility pails 10, 12, and 14 quart, size as specified.

Salient characteristics.

(A) Type: I, lightweight, 10 and 12 quart, .0097 inch minimum, uncoated sheet.
II, heavyweight, 14 quart, .0239 inch minimum, uncoated sheet.

(B) Material steel:

1. Pail body - galvanized sheet or uncoated sheet. When galvanized sheets are used, the seams and edges shall be coated with seaming compound, in conformance with applicable requirements stipulated by the Food and Drug Administration, Code of Federal Regulations, (CFR) Title 21, for use from - 40° F to +212° F.

2. Bail - galvanized wire.

(C) Construction:

1. Pail Body -
   a. body sides - one or two piece construction, tapered.
   b. bottom - one piece, type II shall be reinforced for rigidity.
   c. top and bottom rim - reinforced for rigidity.
   d. watertight.
   e. bail attachment-ears or galvanized top beading wire formed to serve as ears, diametrically positioned.
   f. nestable.

2. Bail -
   a. rotate freely.
   b. formed to attach to ears or top beading wire to prevent it from becoming detached.

(D) Finish. All component uncoated steel parts shall be cleaned free of grit, loose scale, and rust and then hot-dip galvanized a minimum of 2 ounces per square foot both surfaces, after fabrication.

(E) Workmanship. Clean, rigid and free from cracks, sharp edges, and rust.

a. Finish - free from lumps, blisters, grit, uncoated areas, dross, flux, black or acid spots, and flaking.

b. Welds - none missing, unfused, broken, burned through and free from splatter, flash, pits, flux, and scale.

c. Rivets - none missing, and all properly set, peened and equally spaced.

The issue of the CFR in effect on the date of the solicitation for bids shall be used to determine compliance with the stated requirements.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Recovered materials. The manufacturer shall utilize recovered materials to the maximum extent practicable.

Packaging, packing, and marking. The packaging and packing shall be in accordance with normal commercial practice and shall assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with the National Motor Freight Classification and Uniform Freight Classification. Marking shall be as specified in the contract or order.

Copies of CFR 21 are available from the Superintendent of Documents, Government Printing Office, Washington, DC 20402.
