COMMERCIAL ITEM DESCRIPTION

FIRST AID KIT, SNAKEBITE

The General Services Administration has authorized the use of this commercial item description in lieu of Federal Specifications GG-S-530 and GG-K-391.

This commercial item description covers a pocket size snakebite first aid kit.

Salient characteristics. The equipment and supplies contained in the kit shall include a constricting band 3/4 inch to 1-1/2 inches wide by 24 inches ± 2 inches long, a sharp, sterilized blade, a suction device, an antiseptic wipe, and a dressing or bandage. These supplies shall provide the necessary implements to effect the American Red Cross instructions contained in "First Aid for Snakebite", dated 1978, by the American National Red Cross. A copy of same shall be included in each snakebite kit.

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description and that the product conforms to the producer's own drawings, specifications, standards, and quality assurance practices and is the same product offered for sale in the commercial marketplace. The government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Recovered materials. The manufacturer shall utilize recovered materials to the maximum extent practicable.

Packaging, packing, and marking. The first aid kit shall be packaged in accordance with normal commercial practice and packed in fiberboard boxes that will assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with National Motor Freight Classification and Uniform Freight Classification. Shipping containers shall be marked as specified in the contract or order.
