INTERIM AMENDMENT

TO

FEDERAL SPECIFICATION

BLEACH, LAUNDRY, ORGANIC CHLORINE

This interim amendment was developed by the General Services Administration, Federal Supply Service, Washington, DC 20406, based upon currently available technical information. It is recommended that Federal agencies use it in procurement and forward recommendations for changes to the preparing activity at the address shown above.

The General Services Administration has authorized the use of this interim amendment as a valid exception to Federal Specification O-B-420C, dated March 9, 1976.

PAGE 2

Code of Federal Regulations (CFR) 16 CFR 1500 - delete "Federal Hazardous Substances Act." Substitute "Federal Hazardous Substances and Articles; Administration and Enforcement Regulations".

PAGE 4

Table I. Requirements: Insoluble matter content, percent, delete "2/" and footnote thereunder.

Table I. Requirements, Particle size, pass through 200 mesh sieve, percent, delete max "S" and substitute max "1".

Add to Table I Requirements: "Dedusting Agent" min "present" and max "-".

Add new paragraphs in sequence.

3.5 Dedusting agent. The laundry bleach shall contain a dedusting agent consisting of a mineral oil and tested in accordance with paragraph 4.4.11.

3.6 Laws and regulations. The finished product and its unit and shipping container shall comply with the Federal Hazardous Substances Act and rules and regulations published thereunder.

PAGE 5

Delete paragraph 4.1.1

PAGE 8

Delete from Table II under Column I "Material"; Column 2 "3.1" and under Column 3 "1/" and the footnote thereunder.

PAGE 9

Add to Table II, under Column 1 "Dedusting Agent"; under Column 2 "Table I"; under Column 3 "4.4.11"; under Column 5 "x"; under Column 6 "1"; and under Column 7 "x".

PAGE 14

Add new paragraph in sequence.

4.4.11 Dedusting agent. Half fill a glass jar with laundry bleach and close with a screw cap. Shake the jar for one minute. Remove the cap immediately after shaking. The presence of floating dust inside or outside of the jar indicates lack of a dedusting agent and constitutes failure of the test.
