O-M-232E
AMENDMENT 1
September 11, 1970

FEDERAL SPECIFICATION

METHANOL (METHYL ALCOHOL)

This amendment, which forms a part of Federal Specification O-M-232E, dated July 30, 1968, was approved by the Commissioner, Federal Supply Service, General Services Aministration, for use of all Federal agencies.

PAGE 2

Table I, under Requirement for Grades A and AA, delete "Clear and colorless" and substitute "Clear and free from suspended matter or sediment".

Table I, under Characteristics, delete "Nonvolatile content, percent max." and substitute "Nonvolatile content, gm/100 ml, max."

PAGE 3

Paragraph 4.4.3.2 (a), Line 4, delete "specimen, and the peak height is proportional to the concentration." and substitute "specimen."

Paragraph 4.4.3.2 (b), Delete and substitute: "(b) The area under the ethanol or acetone curve of the unknown sample, when calculated utilizing the internal standardization method, shall be no more than specified in table I. Nonconformance to table I shall constitute failure of this test."

PAGE 4

Paragraph 4.4.5.(1), Delete in its entirety.

Paragraph 4.4.6, Line 2, delete: "color,".

Paragraph 4.4.7, After second sentence insert: "The sulfuric acid used must be no darker in color than the methanol."

Paragraph 4.4.11, Delete and substitute:

Paragraph 4.4.11 Specific gravity (methanol content). Determine the specific gravity with a pycnometer of about 50 ml capacity or by any other method accurate to the fourth decimal place. In the temperature range 15° to 25° C., the specific gravity changes 0.00094 per degree centigrade. This correction factor shall be multiplied by the number of ° C. difference between 20° C. and the temperature of the specimen. This resulting number shall be added to the determined specific gravity of the specimen when the temperature is greater than 20° C. and subtracted when the temperature is lower than 20° C. Determine the methanol content from the specific gravity based on the following:

Percent by weight	Specific gravity at 20°/20° C.
99.7	0.79330
99.8	0.79298
99.85	0.79283
99.9	0.79267
100.0	0.79236

Nonconformance to table I shall constitute failure of this test.

Paragraph 4.4.12, At end of first sentence, delete the period and add: "except that specimen shall be 500 ml."
