MS35985-11	100 ± .08	Yellow
MS35985-12	200 ± .10	Blue

MATERIAL: Pipets shall be of borosilicate glass in accordance with ASTM E 438, Type I, Class A.

DESIGN: Pipets shall be of one piece construction consisting of suction tube and delivery tip separated by a sample bulb and in accordance with Federal Specification NNN-P-395, Type I, Class A, Grade 2, Non-serialized precision or ASTM E 694.

Delivery tip shall be of uniform diameter and ground to a flat end and tempered to reduce chipping and breakage. Outside edge of the end shall be beveled and ground or fire polished.

Pipets shall be calibrated "to deliver" at 20°C with permanently fused or etched on graduation marks and shall be color coded for quick size identification.

NOTES:
1. Items differing from this Military Standard by minor variations in design or dimensions are considered standard under this document, provided such variations do not affect performance and are not in conflict with the material requirements specified herein.
2. For design feature purposes, this standard takes precedence over procurement document referenced herein.
3. Referenced documents shall be of the issue in effect on date of invitations for bid.
4. FSCM: 14674, 18575, 21519, 64484, 84116.
