MATERIAL: Borosilicate glass in accordance with ASTM E438, Type I, Class A.

DESIGN: Flasks shall be in accordance with Federal Specification NNN-F-240, Type III, Class 1, Style I.

Flasks with exception of the 10 mL, 25 mL and 50 mL flasks, which may be pear shape, shall have round bottoms. Each flask shall have a marking area located in accordance with commercial practice. Each flask shall be permanently and lightly marked with manufacturer's name or trademark and capacity. Mouths shall be designed to accommodate standard rubber stoppers as specified in Federal Specification ZZ-S-751.

NOTES:

1. Procurement document for these items, with the exception of MS36058-7 shall be Federal Specification NNN-F-240.
2. Flasks are not supplied with stoppers.
3. Items differing from this Military Standard by minor variations in design or dimensions are considered standard under this document, provided such variations do not affect performance and are not in conflict with the material requirements specified herein.
4. For design feature purposes, this standard takes precedence over procurement documents referenced herein.
5. Referenced documents shall be of the issue in effect on date of invitations for bid.
6. FSCM: 14674, 21519, and 22527.
