REVIEW ACTIVITIES: ARMY - MD, ME
NAVY - OS, AS, YD

PART NUMBER	NOMINAL LENGTH OF BLADE mm
MS36323-1	110
MS36323-2	120
MS36323-3	185

MATERIAL: Knife shall be of carbon-vanadium steel in accordance with Federal Specification QQ-T-580, Class W2-09 or W2-10.

Honing back shall be of nickel-copper alloy in accordance with Federal Specification GG-I-526, Class 8, Class A, or of brass in accordance with Federal Specification GG-I-526, Class 8, number 260 or 270, or of corrosion resisting steel in accordance with Federal Specification GG-I-526, Class 3.

Handle shall be of corrosion resisting metal or phenoloc plastic.

Knife case shall be of smoothly finished wood, or corrosion resisting metal or plastic.

FINISH: Knife and honing back shall be finished in accordance with manufacturer's commercial practice.

DESIGN: Knife shall have a Rockwell hardness of C58 to C62 and shall have a smooth, well-sharpened edge.

Cutting edge shall extend to within 7/16 inch of the end of the blade.

Honing back shall be easily attached to the knife without danger of scoring the knife and shall firmly hold the knife in place.

Handle shall provide a firm hand grid for honing and shall be centrally drilled throughout its length for the reception of a metal rod. Rod shall be threaded on one end for attachment to the knife and knurled on the other end for engaging and tightening the thread end into the knife.

Case shall have compartments for the knife, back, and handle and shall have a hinged lid with a fastener.

NOTES:
1. MS 36323-1 is a replacement part for MS 36321-1.
2. MS36323-2 is a replacement part for MS 36322-1.
3. For design feature purposes, this standard takes precedence over procurement document referenced herein.
4. Referenced documents shall be of the issue in effect on date of invitations for bid.

APPROVED 28 June 1963 REVISED (A) 31 MAR 1981

(A) ENTIRE STANDARD REVISED

Department of the Army is mandatory for use by the activity. All other military activities are required to employ this standard where suitable.
