COMMERCIAL ITEM DESCRIPTION

GLIDE, FURNITURE

The General Services Administration has authorized the use of this commercial item description.

1. SCOPE AND CLASSIFICATION

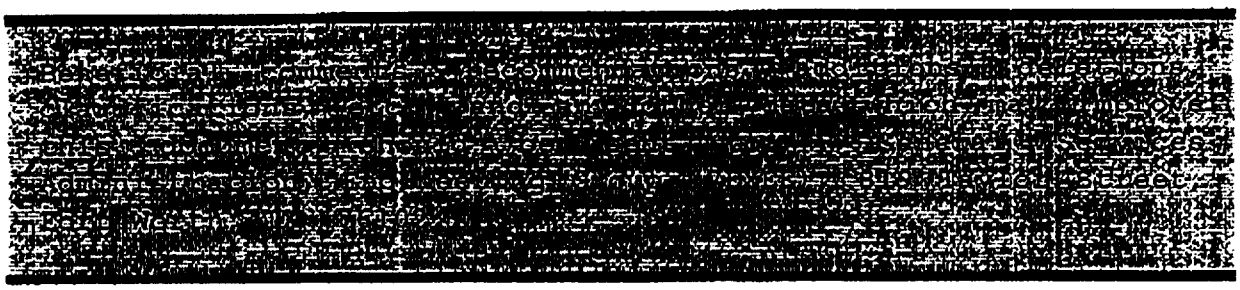

1.1 Scope. This commercial item description covers glides placed under legs of wood furniture to protect floors and rugs.

1.2 Classification. The glides shall be of the following sizes.

Size 1 - 5/8 inch	(15.9 mm)	diameter.
Size 2 - 3/4 inch	(19.1 mm)	diameter.
Size 3 - 7/8 inch	(22.2 mm)	diameter.
Size 4 - 1-1/16 inch	(27.0 mm)	diameter.
Size 5 - 1-1/4 inch	(31.8 mm)	diameter.

2. APPLICABLE DOCUMENTS

2.1 The documents referenced in this commercial item description shall be the issues in effect on the date of the invitation for bids or request for proposal unless otherwise specified. These documents form a part of this commercial item description to the extent specified. In the event that there is a conflict between this commercial item description and a document referenced herein, this commercial item description shall take precedence.

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

FSC 5340

Federal Standard:

FED-STD-376 - Preferred Metric Units For General Use By The Federal Government.

Copies of Federal standards are available from the General Services Administration Business Service Centers in Boston, MA; New York, NY; Philadelphia, PA; Washington, DC; Atlanta, GA; Chicago, IL; Kansas City, MO; Fort Worth, TX; Denver, CO; San Francisco, CA; Los Angeles, CA; and Seattle, WA.

Military Standard:

MIL-STD-105 - Sampling Procedures and Tables for Inspection by Attributes.

Copies of military standards may be obtained from the Standardization Documents Order Desk, Bldg. 4D, 700 Robbins Avenue, Philadelphia, PA 19111-5094.

ASTM Standards:

E 29 - Standard Practice For Using Significant Digits In Test Data To Determine Conformance With Specifications.

Application for copies of ASTM standards should be addressed to ASTM, 1916 Race Street, Philadelphia, PA 19103.

3. SALIENT CHARACTERISTICS

3.1 Design. Furniture glides shall be the nail-in type consisting of a steel base which is mounted by a rubber or plastic cushion and uses a nail stem not less than 1/2 inch (12.7 mm) long for attachment to the furniture leg. The base shall have a minimum thickness of 0.040 inch (1.0 mm). The materials used shall not chemically react with or produce color migration to floor surfaces. The base steel shall be of such strength and temper that it will not deform or fracture during normal use.

3.2 Size. Specified size defines the base diameter. The tolerance for the stated base diameter shall be ± 1/16 inch (1.6 mm).

3.3 Finish. The base steel shall have an oxidized copper finish, nickel plated or chromium plated as specified.

3.4 Workmanship. The furniture glide bases shall be free from sharp edges, cracks, and burrs. The rubber, plastic or elastomer cushion material shall be free from cracks or splits. Coating on the base steel shall cover all exposed areas except the edges and

Check the source to verify that this is the current version before use.

shall have a smooth surface and even color with no flaking or chipping.

3.5 Regulatory requirements. The offeror/contractor is encouraged to use recovered materials in accordance with Public Law 94-580 to the maximum extent practicable.

3.6 Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, provided they fall within the tolerances specified using conversion tables contained in the latest revision of FED-STD-376, and all other requirements of this commercial item description are met.

3.7 Commercial item. The use of the term "commercial item description" in this document does not imply that any item or items offered are not required to conform with all requirements specified herein.

3.8 Measurement system. The values stated in inch-pound units are to be regarded as the standard. The metric values stated in parentheses are for information purposes only.

4. QUALITY ASSURANCE PROVISIONS

4.1 Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or order, the contractor may use his own or any other facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure that supplies and services conform to prescribed requirements.

4.2 Sampling. The sample size levels of inspection shall be in accordance with MIL-STD-105.

4.3 Lot formation. All glides of the same finish and size from the same manufacturer offered for delivery at one time shall be considered a lot for purposes of inspection.

4.4 Sampling for visual and dimensional examination. A random sample of glides shall be selected from each lot in accordance with inspection level S-3, AQL 2.5 expressed in terms of percent defective. The sample unit shall be one glide.

4.5 Visual and dimensional examination. The sample glides shall be visually and dimensionally examined to verify compliance with

Check the source to verify that this is the current version before use.

this description. Tolerance limits specified are absolute limits as defined in ASTM E29.

4.6 Examination for preparation for delivery. A random sample of unit, intermediate and shipping containers (as applicable) shall be selected from each lot and examined for conformance with the preservation, packaging, packing, labeling and marking required in the contract or order. Samples shall be selected in accordance with MIL-STD-105, Inspection level S-2, AQL 6.5 expressed in terms of defects per hundred unit. The sample unit shall be one shipping container.

5. PREPARATION FOR DELIVERY

5.1 Packaging, packing, and marking. The packaging, packing, and marking shall be as specified in the contract or order.

6. NOTES

6.1 Ordering data. Purchasers should select the preferred options permitted herein and include the following information in procurement documents (if applicable).

a. Title, number and date of this commercial item description.
b. Glide size and finish.
c. The packaging, packing, and marking desired.

6.2 National Stock Number. The following NSNs correspond to the items described by this cid:

5340-00-664-7030
5340-00-664-7031

MILITARY INTERESTS:

NONE: DOD has determined that no military activity has an official interest in this Commercial Item Description.

PREPARING ACTIVITY:

GSA - FSS
