COMMERCIAL ITEM DESCRIPTION

CUSTARD MIX, EGG, DRY, NO-BAKE

The U.S. Department of Agriculture has authorized the use of this Commercial Item Description as a replacement for Veterans Administration Specification X-1640/9a.

This Commercial Item Description (CID) covers custard mix, egg, dry, no-bake, packed into commercially acceptable containers, suitable for use by the Federal Government.

Salient Characteristics.

The egg custard mix shall be a vanilla-flavored, free-flowing powder. The mix shall be formulated to be prepared without baking, using whole or skim milk. The product shall contain egg yolk solids as a characterizing ingredient. The egg custard mix shall meet the following analytical requirements:

Protein	- Not less than 3.5%
Moisture	- Not more than 3.0%
Fat	- Not more than 4.5%
Standard Plate Count	- Not more than 20,000 per gram
Coliform	- Not more than 10 per gram
Salmonella	- Negative

Unless otherwise specified in the solicitation, contract, or purchase order, the egg custard mix shall be manufactured not more than 45 days prior to shipment.

Contractor's Certification.

By submitting an offer, the contractor certifies that the product offered meets the specified salient characteristics of this CID; conforms to the producer's own specifications and standards, including product characteristics, manufacturing procedures, quality control procedures, and storage and handling practices; has a national or regional distribution from storage facilities located within the United States, its territories, or possessions; and is sold on the commercial market with commercial sales to the public sector predominating over sales to the Federal Government. The Government reserves the right to require proof of such conformance prior to the first delivery from point of origin and any time thereafter, up to and including delivery at final destination, as may be necessary to determine conformance with the provisions of the contract.

Regulatory Requirements.

All egg ingredients shall have been processed according to the regulations in 7 CFR 59, Inspection of Eggs and Egg Products (Egg Products Inspection Act of

1970), as amended. The delivered product shall comply with all applicable Federal and State mandatory requirements and regulations relating to the preparation, packing, processing, labeling, storage, distribution, and sales of the product within the commercial marketplace. The delivered product shall comply with all applicable provisions of the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder.

Quality Assurance.

When required in the solicitation, contract, or purchase order, the quality assurance of the egg custard mix shall be determined by the responsible inspection/certification agency (Dairy Division or Poultry Division, Agricultural Marketing Service, U.S. Department of Agriculture). The product shall be examined and/or tested in accordance with applicable provisions in the CID, and when applicable, the U.S. Standards for Condition of Food Containers currently in effect on the date of the solicitation, and in accordance with the requirements of all applicable regulations.

Preservation, Packaging, Packing, Labeling, and Marking (as appropriate and applicable).

The egg custard mix shall be preserved, packaged, packed, and case marked in accordance with good commercial practice. Commercial labeling and packaging, as may be augmented by the solicitation, contract, or purchase order, shall be acceptable. Shipping containers shall comply with National Motor Freight Classification or Uniform Freight Classification, as applicable.

Notes.
