COMMERCIAL ITEM DESCRIPTION

EGGNOG MIX, DRY

The U.S. Department of Agriculture has authorized the use of this Commercial Item Description as a replacement for Veterans Administration Specification X-1640/10d.

This Commercial Item Description (CID) covers eggnog mix, dry, packed into commercially acceptable containers, suitable for use by the Federal Government. The product described herein is formulated to be significantly lower in cholesterol than standard eggnog.

Salient Characteristics.

The dry eggnog mix shall be a granular, relatively free-flowing powder of light creamy color, prepared from clean, sound material. The mix shall blend easily with milk and not separate for a period of six (6) hours. Sugar (sucrose) shall not be more than 20 percent of the formulation of the dry mix. When mixed in correct proportions with whole milk, a 240 milliliter (8 fluid ounce) serving of prepared eggnog shall meet the following requirements:

Calories	- Not less than 233
Fat	- Not more than 9.0 gm
Cholesterol	- Not more than 35 mg
Protein	- Not less than 14.6 gm
U.S. RDA for Protein	- Not less than 32.4%

The dry eggnog mix shall conform to the following analytical requirements:

Fat	- Not more than 1.0%
Moisture	- Not more than 4.0%
Standard Plate Count	- Not more than 20,000 per gram
Coliform	- Not more than 10 per gram
Salmonella	- Negative

Unless otherwise specified in the solicitation, contract, or purchase order, the dry eggnog mix shall not be more than 45 days old at the time of shipment.

Contractor's Certification.

By submitting an offer, the contractor certifies that the product offered meets the specified salient characteristics of this CID; conforms to the producer's own specifications and standards, including product characteristics, manufacturing procedures, quality control procedures, and storage and handling practices; has a national or regional distribution from storage facilities located within the United States, its territories, or possessions; and is sold

on the commercial market with commercial sales to the public sector predominating over sales to the Federal Government. The Government reserves the right to require proof of such conformance prior to the first delivery from point of origin and any time thereafter, up to and including delivery at final destination, as may be necessary to determine conformance with the provisions of the contract.

Regulatory Requirements.

All egg ingredients shall have been processed according to the regulations in 7 CFR 59, Inspection of Eggs and Egg Products (Egg Products Inspection Act of 1970), as amended. The delivered product shall comply with all applicable Federal and State mandatory requirements and regulations relating to the preparation, packing, processing, labeling, storage, distribution, and sales of the product within the commercial marketplace. The delivered product shall comply with all applicable provisions of the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder.

Labeling.

Commercial labeling, as may be augmented by the solicitation, contract, or purchase order, shall be acceptable. When specified in the solicitation, contract, or purchase order, the label shall include a nutritional analysis of a 240 milliliter (8 fluid ounce) serving of eggnog mix, prepared in correct proportions with whole milk, detailing the applicable value of each of the following:

CALORIES	RIBOFLAVIN (mg)
PROTEIN (gm)	NIACIN (mg)
FAT (gm)	IRON (mg)
CARBOHYDRATE (gm)	CALCIUM (mg)
VITAMIN A (IU)	PHOSPHORUS (mg)
VITAMIN D (IU)	SODIUM (mg)
VITAMIN C (mg)	POTASSIUM (mg)
THIAMINE (mg)	CHOLESTEROL (mg)

Quality Assurance.

When required in the solicitation, contract, or purchase order, the quality assurance of the dry eggnog mix shall be determined by the responsible inspection/certification agency (Dairy Division or Poultry Division, Agricultural Marketing Service, U.S. Department of Agriculture). The product shall be examined and/or tested in accordance with applicable provisions in the CID, and, when applicable, the U.S. Standards for Condition of Food Containers currently in effect on the date of the solicitation, and in accordance with the requirements of all applicable regulations.

Preservation, Packaging, Packing, and Marking (as appropriate and applicable).

The dry eggnog mix shall be preserved, packaged, packed, and case marked in accordance with good commercial practice. Commercial packaging, as may be augmented by the solicitation, contract, or purchase order, shall be acceptable. Shipping containers shall comply with National Motor Freight Classification or Uniform Freight Classification, as applicable.

Notes.
