COMMERCIAL ITEM DESCRIPTION

SALAD DRESSINGS, POURABLE

The U.S. Department of Agriculture has authorized the use of this Commercial Item Description in preference to Types III through VIII and X of Federal Specification EE-M-131G.

This Commercial Item Description (CID) covers nine types of pourable salad dressings, packed in commercially acceptable containers, suitable for use by the Federal Government.

Salient characteristics.

Salad dressings shall be flavorsome, highly palatable, and free from objectionable flavors, odors, and colors. They shall also be free from foreign material. Salad dressings shall have a color, flavor, and aroma characteristic of the type they represent.

Finished product requirements.

Type I. French dressing.

French dressing shall be an emulsified type of salad dressing which shall comply with the provisions of 21 CFR 169.115. The dressing shall be of a creamy or smooth consistency and the color of the dressing may vary from a light orange to dark orange red. Reduced calorie French dressing (emulsified) and reduced calorie Creamy French dressing shall comply with the provisions of 21 CFR 169.115 except that the vegetable oil is reduced and bodying agents are substituted for the oil.

Type II. Thousand Island dressing.

Thousand Island dressing shall consist of ingredients permitted in the Standards of Identity for Mayonnaise (21 CFR 169.140) or Salad Dressing (21 CFR 169.150) with tomato and pickle relish added. Optional flavoring ingredients may be added. The dressing shall be of a thick, creamy consistency which is free from separation and gas formation. The product shall have a tangy, zestful, spicy flavor and aroma. Reduced calorie Thousand Island dressing shall be prepared as above except that the vegetable oil is reduced and bodying agents are substituted for the oil.

FSC 8940/8950

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Type III. Blue Cheese dressing.

Blue Cheese dressing shall consist of ingredients permitted in the Standards of Identity for Mayonnaise (21 CFR 169.140) or Salad Dressing (21 CFR 169.150) with Blue Cheese or Roquefort or a blend of both. The cheese may be in the form of crumbs, granules, or discernable pieces. Optional ingredients may include Worcestershire sauce, spices, sweeteners, salt, and pepper. Garlic may be used as a supplementary seasoning. The dressing shall be of a thick, creamy consistency which is free from separation and gas formation. The product shall have an agreeably pungent, peppery, piquant flavor and aroma.

Type IV. Italian dressing.

Italian dressing shall be an emulsified, non-separating type of salad dressing which shall consist of an emulsified blend of oil, vinegar, water, and nutritive sweeteners as a base with spices and vegetables added. Optional ingredients may include oregano, celery, carrots, vinegar, and onions. The product shall have a creamy, tangy, and zestful flavor, and the vegetable ingredients shall taste of their own individuality. Reduced calorie Italian dressing (non-separating type) shall be prepared as above except that the vegetable oil is reduced and bodying agents are substituted for the oil.

Type V. Cole slaw dressing.

Cole slaw dressing shall consist of ingredients permitted in the Standards of Identity for Mayonnaise (21 CFR 169.140) or Salad Dressing (21 CFR 169.150). The dressing may vary in color from a pale yellow to a deeper egg yolk shade. The dressing shall be thick, creamy, and smooth, homogenous in appearance, free from gumminess, and show no separation of oil or watery phases. The flavor and aroma shall be sweet, tart, zestfully savory, and mildly spicy.

Type VI. Buttermilk style dressing with spices.

Buttermilk style dressing shall be an emulsified semi-solid type of salad dressing prepared from vegetable oil(s), buttermilk, egg yolks, stabilizer, acidifying ingredients, garlic and onion. Optional ingredients may include sour cream, tarragon, and other spices. The dressing shall be off-white to light cream in color, with visible spice particles suspended evenly throughout. The dressing shall have a thick, creamy consistency with no separation of the oil or water phase. The product shall have a clean, characteristic buttermilk flavor, be moderately spiced, and be free from old, rancid, stale oil flavors.

Type VII. Green Goddess dressing.

Green Goddess dressing shall consist of ingredients permitted in the Standards of Identity for Mayonnaise (21 CFR 169.140) or Salad Dressing (21 CFR 169.150) with anchovies (minced or paste), chopped chives, and spice flavor. Other ingredients may consist of milk products, celery seed, minced parsley sprigs,

tarragon, vinegar, and lemon juice. The dressing shall be of a thick, creamy consistency, shall be homogenous and free from separation, gas formation, or air voids. Any chopped or minced components added shall be uniformly distributed throughout the product. The color shall be pale green. The product shall be of the sweet/sour flavor with a subtle anchovy or characteristic fish flavor background and without being objectionably salty.

Type VIII. Bacon and Tomato dressing.

Bacon and Tomato dressing shall possess a clear distinct bacon and tomato flavor and shall consist of a smooth, creamy combination of oil, vinegar, and tomato based product flavored with either real bacon pieces or imitation bacon flavored bits.

Type IX. Creamy Cucumber dressing.

Creamy Cucumber dressing shall possess a clean, distinct cucumber flavor and shall consist of a smooth, creamy combination of oil, vinegar, and sour cream flavored with cucumber juice, onion, and black pepper.

Contractor's certification.

By submitting an offer, the contractor certifies that the product offered meets the specified salient characteristics and requirements of this CID; conforms to the producer's own specifications and standards, including product characteristics, manufacturing procedures, quality control procedures, and storage and handling practices; has a national or regional distribution from storage facilities located within the United States, its territories, or possessions; and is sold on the commercial market. The Government reserves the right to determine proof of such conformance prior to the first delivery from point of origin and any time thereafter, up to and including delivery at final destination, as may be necessary to determine conformance with the provisions of the contract.

Regulatory requirements.

The delivered product shall comply with all applicable Federal and State mandatory requirements and regulations relating to the preparation, packaging, labeling, storage, distribution, and sales of the product in the commercial marketplace. All deliveries shall conform in every respect to the provisions of the Federal Food, Drug, and Cosmetic Act and regulations promulgated thereunder.

Quality assurance.

When required in the solicitation, contract, or purchase order, the Processed Products Branch, Fruit and Vegetable Division, Agricultural Marketing Service, USDA will determine the quality assurance of the salad dressings according to Processed Products Branchprocedures. The product shall be examined and/or analyzed in accordance with applicable provisions in the CID, and when applicable, the United States Standards for Condition of Food Containers currently in effect on the date of the solicitation.

Preservation, packaging, packing, labeling, and marking.

The salad dressings shall be preserved, packaged, packed, labeled, and case marked in accordance with good commercial practice. Commercial labeling and packaging, as may be augmented by the solicitation, contract, or purchase order, shall be acceptable. Shipping containers shall comply with National Motor Freight Classification or Uniform Freight Classification, as applicable.

For Department of Defense procurements.

The following requirements are applicable when specified by the contracting officer:

A. Commercial packaging. Products shall be packaged in accordance with good commercial practice and as specified in Table I.

TABLE I. Commercial packaging requirements

Dressing	Package	Number per shipping container
Bacon and Tomato, Blue Cheese, Buttermilk, Cucumber, French, Italian, Thousand Island, Reduced calorie: Creamy French, French, Italian, and Thousand Island	7/16 oz. individual serving	200
	8 oz. bottle	12
	16 oz. bottle	12
	1 gal. jar	4
Cole slaw	1 qt. jar	12
	1 gal. jar	4
Green Goddess	8 oz. bottle	12

B. Commercial packing. Product shall be packed in fiberboard boxes complying with Uniform Freight Classification or National Motor Freight Classification. Each box with glass containers shall be fitted with fiberboard inner packing to protect containers. The number of packages per shipping container shall be as specified in Table I.

C. Export packaging. The product shall be packaged in accordance with (1) or (2), as applicable. Container package shall be as specified in Table I.

as follows: Sources of information for nongovernmental documents are

(1) Glass containers. Glass containers shall be in accordance with good commercial practice. Metal or plastic closures are acceptable. The closure shall form an hermetic seal and shall be fabricated or coated with corrosion-resistant materials. Screw cap closures shall be secured with a shrink-on cellulose band, pressure-sensitive plastic, film-adhesive tape, or a tamper-evident seal applied around the circumference at the juncture of the cap and containers.

(2) Individual servings. Individual serving size containers shall be packaged in accordance with PPP-I-350, Level B.

D. Export packing. Product shall be packed in accordance with (1) or (2), as applicable. The quantity of unit packages per shipping container shall be as specified in Table I.

(1) Glass containers. Product shall be packed in a fiberboard box constructed, closed, and reinforced in accordance with PPP-B-636, Grade V3c, V3s, or V4s, Style RSC-L. Fiberboard pads shall be placed on the top and bottom of the containers. Fiberboard partitions shall provide a cell for each container. Reinforcement shall be limited to nonmetallic strapping or pressure-sensitive adhesive, filament-reinforced tape.

(2) Individual servings. Individual serving size containers shall be packaged in accordance with PPP-I-350, Level B.

E. Unit loads (commercial and export). Shipping containers shall be arranged in unit loads in accordance with MIL-L-35078. When unit loads are strapped, strapping shall be limited to nonmetallic strapping, except for Type II, Class F loads.

F. Labeling. Commercial labeling shall be acceptable.

G. Marking. Marking of shipping containers and unit load shall be in accordance with MIL-STD-129. Shipping containers packed with glass containers shall be imprinted on top in boldface type as follows:

"STORE IN COOL PLACE - DO NOT FREEZE"

"FRAGILE - HANDLE WITH CARE" (as applicable)

"THIS SIDE UP"

Shipping containers packed with individual servings shall be imprinted on top in boldface type as follows:

"KEEP REFRIGERATED

(45°F OR BELOW)

DO NOT FREEZE"
