COMMERCIAL ITEM DESCRIPTION

SHIELDS, EYE SURGICAL

The General Services Administration has authorized the use of this Commercial Item Description as a replacement for Federal Specification GG-S-328B, which is being cancelled.

This Commercial Item Description covers an eye shield designed to eliminate infiltration of light into the eye and protect an injured or traumatized condition of the eye.

Salient Characteristics:

One complete eye shield shall consist essentially of an opaque plastic dome shaped shield with an attached elastic cord.

The eye shield shall be dome shaped, for secure and gentle retention of medical dressing and shall be approximately 80 mm X 55 mm in size, designed to fit completely and comfortably over either eye of the average normally developed adult face with adequate clearance for eyelashes. The shield shall be completely opaque without ventilation holes so that no light may pass through it.

The plastic shield shall be fabricated from a vinyl base nonflammable material.

The elastic cord shall be adjustable and designed to fit around a patients head with a minimum unstretched length of 45 cm. The material shall be rayon covered elastic or a similar material which has equal or better strength and elastic properties.

The eye shield including the elastic band shall be either in black or flesh color. All edges and corners shall be smooth and rounded.

Workmanship. The eye shield shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package containing twelve eye shields, as specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Inspections and testing. Inspections and testing shall be conducted on each eye shield to demonstrate its capability for proper operation.

Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard 376, and all other requirements of this document are met. If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch/pound units, a request should be made to the contracting officer to determine if the product is acceptable. The contracting officer has the option of accepting or rejecting the product.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.
