COMMERCIAL ITEM DESCRIPTION

TUBE, SPECIMEN (Pinworm, Disposable)

The General Services Administration has authorized the use of this Commercial Item Description as a replacement for Military Specification MIL-T-36989A which is cancelled.

This Commercial Item Description covers a sterile and disposable pinworm specimen tube assembly

Salient Characteristics:

Shall be a disposable pinworm specimen tube assembly that includes a paddle style applicator for collecting pinworms, pollen, spores, dust and other fine particles

Shall consist of a tube with cap closure, with a paddle member fixed to the inside of the cap closure and suspended within the tube.

Shall be supplied in a sterile condition. The pinworm specimen tube assembly shall be supplied in a sealed envelope that is capable of maintaining the sterility of its contents until the envelope is manually opened. The envelope shall not be resealable after being opened.

Shall include the following:

A nominal 17 diameter X 100 long millimeter (mm) closed end tube, with a reinforced lip around the periphery of the open end, that is fabricated of clear and rigid polystyrene.

A rigid plastic friction type closure cap with the stem of the paddle applicator securely attached to the inside of the closure cap.

A paddle with stem that is fabricated from rigid and clear polyethylene. The paddle itself shall have rounded corners and nominal (mm) dimensions of 40 long X 13 wide X 1 thick. One side (surface) of the paddle shall be coated with tacky adhesive for use in collecting the specimens. The stem shall be securely attached to the inside of the closure cap.

AMSC N/A FSC 6640

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

Shall provide the following when completely assembled in the closure position:

The closure cap fits over the reinforced lip around the periphery of the open end of the tube

The paddle member, with stem end securely held in place by the closure cap, is suspended within the tube

Workmanship. The pinworm specimen tube shall be free from defects which detract from its appearance or impair its serviceability

Unit. Package (PG). One package containing two hundred individually packaged sterile pinworm specimen tubes, as specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Inspections and tests. Inspections and tests shall be conducted on the pinworm specimen tubes in accordance with commercial practice to determine compliance with specification requirements. Sampling for inspections and tests shall be conducted in accordance with commercial practice

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Federal Acquisition Regulation Subpart 23 4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

Ordering data. (Intermediate/exterior package quantities, labeling, and marking must be specified in the contract and/or order)

INSTRUCTIONS: In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)*, and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation, was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

NOTE. This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
