COMMERCIAL ITEM DESCRIPTION

MARKER, IDENTIFICATION, Dental Health Record

The General Services Administration has authorized the use of this Commercial Item Description.

This commercial item description covers markers for use as identification labels on dental record folders. The markers shall be of the following colors, as specified below:

Color 1 - White
Color 2 - Medium Green
Color 3 - Yellow
Color 4 - Medium Blue
Color 5 - Red

Salient characteristics:

Material. Cellulose acetate, polyester, and adhesive used for the identification markers shall conform to type I of L-T-99C for material requirements and for the physical characteristics of tensile strength and adhesion only.

Design and construction. The identification markers shall consist of die-cut, pressure-sensitive, self-adhesive tape labels mounted on a single, continuous roll of liner. The labels shall be rectangularly shaped with rounded corners, and shall measure 7/8 ± 1/32 inch in length by 3/8 ± 1/32 inch in width. A total of 1000 to 1050 labels shall be mounted individually on the liner (carrier tape) such that they may be removed easily, without distortion.

Mounting of labels. Identification markers shall be wound into a roll (with or without a cardboard core) and packaged in a dispensing carton constructed such that the markers may be unrolled in the quantity desired without removing the entire roll of markers from the carton.

Delivery schedule. Not more than 4 months shall have elapsed from date of manufacture of the markers to the date of delivery to the Government.

Unit. Roll (Ro). One roll containing one thousand markers of one color only as specified, constitutes one unit.

Color and finish. The markers shall be uniformly colored and have a glossy finish.

Workmanship. Workmanship shall be first class throughout. The markers shall be free of cracks, tears, or other defects which may detract from their appearance or impair their serviceability.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item. Inspection shall be conducted to determine compliance with specification requirements.

Sampling for inspection. Sampling for inspection shall be conducted in accordance with MIL-STD-105. Where feasible, the same sample shall be used for the determination of two or more inspection characteristics. The unit of product for inspection purposes shall be one roll of identification markers. Unless otherwise specified, sampling for examination shall be conducted at inspection level II, AQL 2.5, and sampling for tests (when applicable) shall be conducted at inspection level S-1, AQL 1.0.

Practical performance test. The first 3 plies of the roll of markers shall be removed from the rolls before taking specimens for testing. Three individual labels from each sample roll shall be removed by hand from the liner. There shall be no difficulty in removal or evidence of distortion to the labels.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Metric Products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch/pound units, providing they fall within the tolerance specified using conversion tables contained in the latest revision of Federal Standard No. 376, and all other requirements of this document are met. If a product is manufactured to metric dimensions and those dimensions exceed the tolerance specified in the inch/pound units, a request should be made to the contracting officer to determine if the product is acceptable. The contracting officer has the option of accepting or rejecting the product.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

INSTRUCTIONS. In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)*, and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation, was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

NOTE. This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
