COMMERCIAL ITEM DESCRIPTION

ANVIL, OPTICIAN'S, RIVETING

The General Services Administration has authorized the use of this commercial item description to replace Military Specification MIL-A-36194 which is being cancelled.

This commercial item description covers a riveting anvil, suitable for use in the optical shop.

Salient characteristics:

General. Shall be a specialized tool for use when removing or replacing rivet from spectacle frame without marring the rivet head.

Materials. The anvil body shall be made of soft gray cast iron conforming to American Society for Testing and Materials (ASTM) Specification A48, Class 20B with minimum tensile strength 20 ksi. The riveting post shall be made of tool steel with minimum Rockwell hardness C50.

Characteristics. The style, design and dimensions shall be in accordance with Figure 1. Variation of the casting style is permitted.

Marking. The anvil body shall be permanently marked with manufacturer's name or logo.

Workmanship. The anvil shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Each (EA). One anvil, as specified, constitutes one unit.

AMSC N/A FSC 6540

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract of purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Metric Products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard No. 376, and all other requirements of this document are met. If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch-pound units, a request should be made to the contracting officer to determine if the product is acceptable. The contracting officer has the option of accepting or rejecting the product.

Regulatory requirements.

Federal Food, Drug, and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use the covered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Number is covered by this document:
