COMMERCIAL ITEM DESCRIPTION

SKELETON, HUMAN

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers a male, adult, human skeleton for use in training medical personnel.

Salient characteristics.

The skeleton shall be a full scale anatomically correct reproduction of an adult male with attached hardware for hanging and a mobile display stand.

The skeleton shall be constructed of plastic polyester material. The materials used shall simulate the color, weight, texture and capacity of natural human bone. When required, connecting metallic parts shall be corrosion resistant steel or treated for corrosion resistance. All materials used in construction shall be readily cleaned using soap and water.

The skeleton shall be capable of articulation at all joints. The skeleton shall disarticulate at the major joints. The skeleton shall separate into at least 14 pieces. The skull shall have a breakaway maxilla with a disection to show frontal and paranasal sinuses. One hand and one foot shall articluate with springs, or equivalent mechanism, to show joint flexation.

The skeleton shall be supplied with a mobile display stand. The skeleton shall be provided with a hang-up mounting affixed to the skull. The skeleton shall mount to the display stand with a normal posture.

Workmanship. The human skeleton shall be free from defects which detract from its appearance or impair its serviceability.

AMSC/NA FSC 6910

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Unit. Each (EA). One skeleton, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specification, standard, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
