MS36456-5	Disk, Manganese					
MS36456-6	Disk, Silica					

MATERIAL: Comparator housing shall be of cold-rolled steel with a black, wrinkle finish.

Disks shall be of molded acid-resistant plastic with clear, glass, color standards.

DESIGN: Comparator shall be disk-type, equipped with a built-in light source and prismatic magnifying lens. It shall give a viewing depth of 200 mm.

Disks shall be 3-7/16 inches in diameter and 5/16 inch thick.

PURPOSE: For analysis of water, sewage, industrial wastes, and solutions where extremely pale colors are developed.

COMPONENTS: Comparator shall include a magnifying eyepiece, lamp bulb, two nessler tubes with optical glass plungers, and a plastic dust cover.

NOTE: Items differing from this Military Standard by minor variations in design or dimensions are considered standard under this document, provided such variations do not affect performance and are not in conflict with the material requirements as specified herein.

APPROVED REVISED

This military standard is approved by the Department of Defense and is mandatory on all activities. Selection for all new engineering and design applications and for repetitive use shall be made from this document.
