Use/relationship: The Verification, Demonstration, and Evaluation Plan describes the contractor's program for verifying, demonstrating, and evaluating the maintenance and logistic support characteristics of the system. The plan provides Government visibility to the contractor's approach for assessing the Integrated Product Support (IPS) program.

a. This Data Item Description (DID) contains the format, content, and intended use information for the data deliverable resulting from the work task described in the solicitation.

b. This DID supersedes DI-MNTY-81188.

Requirements:

1. Reference documents. None

2. Format. The Verification, Demonstration, and Evaluation Plan shall be contractor selected. Unless effective presentation would be degraded, the initially used format arrangement shall be used for all subsequent submissions.

3. Content. The Verification, Demonstration, and Evaluation Plan shall describe the contractor's three-phase program for providing progressive assurance that the IPS contractual requirements have been met. The plan shall cover the verification, demonstration, and evaluation program identified in the contract statement of work. The plan shall include the following:

    a. Demonstration administration.

    b. Schedules and duration.

    c. Data recording rules and assessment techniques.

    d. Number of units and mission mix as appropriate.
