COMMERCIAL ITEM DESCRIPTION

PAPER, CHART, FETAL-UTERINE MONITOR

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers chart paper used for recording outputs of fetal monitors such as Corometrics Models 111 and 112.

Salient characteristics.

The paper shall be a packet of Z-fold chart paper, with identification labels, for use with Corometrics fetal monitor, Style 111 and 112.

The paper shall be of a uniform color and thickness. The paper shall be heat and pressure sensitive to assure clear accurate recordings.

Each Z-fold section of paper shall be 15.2 cm long by 12 cm wide. At a recording rate of 3 cm/min, each packet of paper shall provide eight (8) hours recording time.

The paper shall have two separate, parallel chart grids. At the recording rate of 3 cm/min, both grids shall have time divisions at ten-seconds and one-minute intervals. One scale shall be used to record heart rate, the other uterine activity.

The heart rate shall be scaled in a range of width from 30 to 240 (beats per minute) with 10 bpm divisions. The grid shall have a method of quantifying the variability in a heart rate tracing.

The uterine activity shall be scaled in a range of width from 0 to 100 mm Hg. The grid shall have a uterine activity unit scale.

Workmanship. The chart paper shall be free from defects which detract from its appearance or impair its serviceability.

AMSC N/A FSC 6515

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Unit. Package (PG). One package containing 40 packets of chart paper, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specification, standard, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Metric Products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard No. 376, and all other requirements of this document are met.

If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch/pound units, a request should be made to the contracting officer to determine if the product is acceptable.

The contracting officer has the option of accepting of rejecting the product.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Number is covered by this document:

NSN	ITEM IDENTIFICATION
6515-01-144-3823	PAPER, CHART, FETAL-UTERINE MONITOR, Z-Fold, 15 cm long by 12 cm wide, 40's

Ordering data. Intermediate/exterior package quantities and labeling and marking must be specified in the contract and/or order.

INSTRUCTIONS. In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)*, and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation, was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

NOTE. This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
