COMMERCIAL ITEM DESCRIPTION

DISPENSER, PAPER NAPKIN

The General Services Administration has authorized the use of this commercial item description for all Federal agencies.

1. SCOPE

1.1 Scope. This commercial item description (cid) covers a stainless steel paper napkin dispenser.

2. SALIENT CHARACTERISTICS

2.1 Design and construction. The body of the paper napkin dispenser shall be constructed from 400 series corrosion-resisting steel. The dispenser shall have two openings for dispensing napkins, 180 degrees apart. The dispenser shall hold a minimum of 125 folded paper napkins measuring 7 inches (17.8 cm) in length by 3-1/2 inches in width (8.9 cm). The dispenser shall be capable of holding a equal number of napkins on both sides. The dispenser shall be provided with four non-marking rubber feet. The interior of the dispenser shall have two pressure plates, one for each side, which maintain pressure against the napkins for ease of dispensing. The pressure plates may be made from corrosion-resisting steel or zinc plated carbon steel. The outer surfaces of the dispenser shall have a smooth and polished finish. The dispenser shall properly dispense single napkins without tearing.

2.2 Marking. The dispenser shall be marked with the manufacturer's name, trade name, or trademark.

2.3 Workmanship. The dispenser shall be clean, free from any cracks, fractures, malforming, scale, pits, and flux deposits. The dispenser shall have no sharp edges, slivers, burrs, scratches, tool marks, or other defects which may affect appearance or serviceability.

2.4 Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within tolerances specified and all other requirements of this document are met. If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch-pound units, a request should be made to the contracting officer to determine if the product is acceptable.

Beneficial comments, recommendations, additions, deletions, clarifications, etc. and any data which may improve this document should be sent to: General Services Administration, Engineering Group (7FXEE), 819 Taylor St., Fort Worth, TX 76102

Distribution Statement A: Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

2.5 Standard commercial product. The dispenser shall, as a minimum, be in accordance with the requirements of this CID and shall be the manufacturer's standard commercial product. A standard commercial product is a product which has been sold or is currently offered for sale on the commercial market through advertisements, manufacturer's catalogs, or brochures, and represents the latest production model.

3. REGULATORY REQUIREMENTS

3.1 Recovered materials. The offeror/contractor is encouraged to use recovered materials to the maximum extent practicable, in accordance with paragraph 23.403 of the Federal Acquisition Regulation (FAR).

4. QUALITY ASSURANCE PROVISIONS

4.1 Product conformance. The products provided shall meet the salient characteristics of this commercial item description, conform to the producer's own drawings, specifications, standards, and quality assurance practices and be the same product offered for sale in the commercial market. The Government reserves the right to require proof of such conformance.

5. PACKAGING

5.1 Preservation, packing, and marking. Preservation, packing, and marking shall be as specified in the contract or order.

6. NOTES

6.1 Ordering data. Purchasers should select the preferred options permitted herein and include the following information in procurement documents (if applicable).

a. Title, number and date of this commercial item description.
b. Preservation, packing, and marking desired.

6.2 National Stock Number (NSN): The NSN assigned to the napkin dispenser which corresponds to this CID is 7350-00-205-0928.
