COMMERCIAL ITEM DESCRIPTION

HERBICIDE, HEXAZINONE

This specification is approved by the Commissioner, Office of Federal Supply and Services, General Services Administration for the use of all Federal agencies.

SCOPE AND CLASSIFICATION

This commercial item description covers hexazinone a general herbicide for non-cropland area in two types and two classes.

Type I Dilutable formulation

Class 1 - Water soluble powder with no less than 90 percent Hexazinone
Class 2 - Water dispersible liquid with no less than 25 percent Hexazinone

Type II Ready to Use

Class 1 - Broadcasting granule with no less than 75 percent Hexazinone
Class 2 - Liquid form with no less than 25 percent Hexazinone with red dye. (See option under Intended use)

Salient characteristics.

Active ingredient. The active ingredient Hexazinone, 3-cyclohexyl-6-(dimethylamino)-1-methyl-1,3,5-triazine-2,4(1H,3H)-dione shall be determined by the latest issue of AOAC methods. Failure to meet the minimum requirements listed in the Scope and Classification above shall result in failure of the sample.

FSC 6840

DISTRIBUTION STATEMENT A: Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

Registration and Labeling. This herbicide shall be registered with the Environmental Protection Agency (EPA) and labeled in compliance with the most current Regulations for the Enforcement of the Federal Insecticide Fungicide and Rodenticide Act (40 CFR 162-180).

QUALITY ASSURANCE

Certification. The contractor shall certify that the product offered meets the salient characteristics of this description and that the product conforms to the producer's own drawing, specifications, standards and quality assurance practices and is the same product offered for sale in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

PACKING

Packaging, packing, and marking. The packaging and packing shall be in accordance with normal commercial practice and shall assure acceptance by common carrier and provide product protection against loss and damage during multiple shipments, handling, and storage. The shipping container shall be in compliance with the National Motor Freight Classification and Uniform Freight Classification. Marking shall be as specified in the contract or order.

NOTES

Intended use. The Hexazinone is an effective general herbicide for the control of many annual and biennial weeds, woody vine, and most of perennial weeds for non-crop areas. The dry form is nonvolatile, non-flammable and non-corrosive to equipment. Liquid form contains Esthonia with flash point of 23° C (73.4° F).

Type I,	Cl 1	Water soluble postemergence powder to be diluted with water to the recommended concentration for spray application.
	Cl 2	Water dispersible liquid to be mixed in water and applied as a spray for selective weed and brush control in reforestation areas and for nonselective weed and brush control on noncropland areas.
Type II,	Cl 1	Granular product to be distributed in a broadcast pattern on the soil surface in reforestation areas for control of undesirable woody and herbaceous plants.
	Cl 2	Liquid product to be used undiluted with an exact delivery handgun applicator as an individual stem treatment for control of undesirable woody plants. Contains red dye to identify treated areas. (OPTION: Product without a dye is also available.)
