MILITARY SPECIFICATION

REGULATOR, OXYGEN, DILUTER DEMAND

This amendment forms a part of Military Specification MIL-R-6018C(ASG), 7 October 1966, and is mandatory for use by all Departments and Agencies of the Department of Defense.

Page 2

Para. 3.1 - Delete and substitute the following:

"3.1 First article - The regulator furnished under this specification shall be a product which has been inspected and passed the first article inspection specified herein."

Page 5

Para. 4.2 (a) - Delete and substitute the following:

"(a) First article inspection (see 4.3 and 6.3.1)"

Paras. 4.3 and 4.3.1 - Delete and substitute the following:

"4.3, First article inspection - First article inspection shall consist of all the examinations and tests of this specification.

4.3.1 First article samples - Unless otherwise specified, as soon as practicable, after the award of the contract or order, the manufacturer shall submit three regulators. The samples shall be representative of the construction, workmanship, components, and materials to be used during production. When a manufacturer is in continuous production of these units from contract to contract, submission of further first article samples on

the new contract may be waived at the discretion of the procuring activity (see 6.2). Approval of the first article samples or the waiving of first article inspection does not preclude the requirements of submitting to the quality conformance inspection. The first article inspection samples shall be furnished to the Government as directed by the contracting officer (see 6.2).

4.2.1.1 Upon completion of the first article inspection, all the applicable inspection reports and when applicable, recommendations and comments pertinent for use in monitoring production will be forwarded to the cognizant Government activity. The approved regulators will be returned to the manufacturer for use in monitoring production."

Page 11

Para. 6.2 - Add the following

(a) Whether first article inspection is required and where the samples should be delivered (see 4.3.1).

Para. 6.3.1 - Delete and substitute the following:

"6.3.1 First article inspection - First article inspection consists of examinations and tests performed on samples, which are representative of the production item after award of a contract to determine that the production item conforms to the requirements of this specification."

Page 12

Para. 6.5 - Delete and substitute the following:

"6.5 Procurement information - This specification will no longer be used for the procurement of oxygen regulators except where necessary as a replacement for existing oxygen regulators."
