MILITARY SPECIFICATION

LATHES, ENGINE AND TOOL ROOM 13 THROUGH 17 INCH

This amendment forms a part of Military Specification MIL-L-23249D dated 17 October 1984, and is approved for use by all Departments and Agencies of the Department of Defense.

PAGE 4

3.2.1.1.1, line 1: Delete entire paragraph number and insert “3.2.1.2.”

PAGE 8

3.4.6, add: “When only one type spindle speed change mechanism is acceptable, the mechanism shall be as specified (see 6.2.1).”

PAGE 9

3.4.11, line 5: Delete “The compound rest shall have a standard size T-slot for mounting tool holders.” and substitute “The compound rest shall have a standard size T-slot for mounting tool holders and will meet the requirements of ANSI B5.1."

PAGE 10

3.4.8, insert after first sentence “Alternating-current (AC) motors shall be designed to operate on 60-hertz (Hz).”

PAGE 11

Table I note: Delete note in its entirety and substitute “Machine sizes and capacities shall be not less than the stated requirements of the size ordered nor greater than the requirements of the next larger size shown in above table. When the largest size and capacity machine shown in above table is ordered, the size and capacity of the machine offered shall not exceed the stated requirements by more than 10 percent. When a range is shown, the required performance is from the stated minimum or less to the stated maximum or greater. “

The margins of this amendment are marked with an asterisk to indicate where changes (additions, modifications, corrections, deletions) from the previous amendment were made. This was done as convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations and relationship to the last previous amendment.

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.
