COMMERCIAL ITEM DESCRIPTION

Processing Machine, Radiographic Film, Automatic, Deployable

The General Services Administration has authorized the use of this commercial item description

1 SCOPE This document defines the technical and performance requirements for a medium capacity, portable, processor machine, radiographic film, automatic, deployable suitable for automatic developing, fixing, washing and drying of all standard brands of nondestructive testing x-ray film in an industrial environment

2 SALIENT CHARACTERISTICS

2 1 Power Requirements The processor shall operate in accordance with requirements of this product description when supplied with either 110 or 220 + /- 10% Volts, 3-wire single phase, 50/60 Hz, 20 amp maximum current

2 2 Standby Mode The processor shall have an automatic standby mode to conserve energy and wear by automatically shutting down the transport and dryer systems when no film is being processed

2 3 Display The processor shall have a digital temperature display

2 4 Feed Indicator The processor shall provide an indicator to alert the operator that it is ready for additional film

2 5 Weight The maximum weight shall not exceed 225 lb (empty)

2 6 Size The processor, including feed tray, shall not occupy more than 10 square feet The height shall not exceed 24 inches

2 7 Warm-up The processor warm-up period shall not exceed 25 minutes

2 8 Capacity The processor shall be capable of processing at least 25, 14 in x 17 in, industrial radiographic film per hour

2 9 Auto Replenishment System. The processor shall incorporate an automatic solution replenishment system The replenishment system shall be adjustable

Beneficial comments(recommendations, additions, deletions) and any pertinent data which may be of use in improving the document should be addressed to San Antonio ALC/TILBD, 306 Tinker Drive, Bldg 207, Kelly AFB TX 78241-6425 Document Improvement Proposal(DD Form 1426) appearing at the end of this document or by letter

DISTRIBUTION STATEMENT A Approved for public release, distribution is unlimited

Check the source to verify that this is the current version before use.

2 10 Film The processor shall be able to accommodate all industrial types and brands of film in sheet and roll formats up to 14 inches wide

2 11 Chemicals The processor shall be able to use all commercial processing chemicals

3 REGULATORY REQUIREMENTS

3 1 Recoverable materials The contractor is encouraged to use recovered materials in accordance with Public Law 94-580 to the maximum extent practical

3 2 Metric products Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pounds unit, provided they fall within specified tolerances using conversion tables contained in the latest revision of Federal Standard No 376, and all other requirements of this Commercial Item Description are met If a product is manufactured to metric dimensions and those dimensions exceed tolerances specified in the inch-pound units, a request should be made to the contracting officer to determine if the product is acceptable The contracting officer has the option of accepting or rejecting the product

4 QUALITY ASSURANCE PROVISIONS

4 1 Contractor Certification The contractor shall certify and maintain substantiating evidence that the product offered meets the salient characteristics of this Commercial Item Description, and that the product conforms to the producer's own drawings, standards, and quality assurance practices The government reserves the right to require a government witnessed, pre-award, sample verification test at the contractor's site to insure conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract

4 2 Market Acceptance The following market acceptance criteria are necessary to document the quality, reliability and supportability of the product to be provided under this CID

4 2 1 The company producing the item must have been producing an industrial automatic processor meeting the requirements of this CID for at least 2 years

4 2 2 The company must have sold at least 30 units of the model being offered commercially

5 Preservation packaging packing labeling and marking Preservation, packaging, packing, labeling, and marking shall be specified in the contract or order

6 0 NOTES

6 2 Ordering data

a) Title, number, and date of this description
b) Specify special packaging requirements
c) Contracting officer may request proof of certification of commercial item prior to first contract delivery
