COMMERCIAL ITEM DESCRIPTION

BOTTLE, URINE SPECIMEN

The General Services Administration has authorized the use of this Commercial Item Description.

The Commercial Item Description describes a 24 hour specimen container used to collect, refrigerate and transport urine specimens.

Salient Characteristics: Bottle, Urine, Specimen, disposable, polyethylene, nonsterile, translucent, brown, meeting USP Standards for light transmission through plastic container. 3000 ml. capacity, graduated in 100 ml increments, wide-mouth opening, carrying handle molded as integral part of bottle, white plastic screw cap closure.

Contractor Certification: The contractor shall certify that the product offered meets the salient characteristics of this description, and conforms to the producer's own drawings, specifications, standards and quality assurance practices, and is the same as the product sold in the commercial market place. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory Requirements

Federal Food, Drug and Cosmetic Act - If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials - The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking - Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

For information only - The following products as of the date of this document, are purported by the following companies to meet the salient characteristics of the items described herein:

Sage Products #5000; Viscot #2400A.
