COMMERCIAL ITEM DESCRIPTION

STANDS, INTRAVENOUS-IRRIGATION CONTAINER

The General Services Administration has authorized the use of this commercial item description in preference to Federal Specification RR-S-709B, Amendment 1.

This commercial item description describes a stand for use in suspending solution containers during administration of intravenous solutions, blood, etc.

Salient characteristics. Stands, Intravenous-Irrigation, Container, stainless steel, automatic locking control for one hand operation, adjustable telescoping height from a low of 73 inches plus or minus 2 inches to a height of 106 inches plus or minus 2 inches; two (2) hooks, one (1) at each end of crossbar; crossbar overall length 13 inches plus or minus 1/4 inch, hooks either pig tail or lock style. Crossbar welded to upright; minimum distance of 16-1/2 inches between the center line of stem of the glides or casters; base shall be weighted with a minimum of 9 lbs. and designed to avoid tipping, The stand, when raised to a height of 7 feet above the floor and tilted to a 23 degree angle and released, shall return to an upright position. The stand shall be free of dirt catching crevices. All welds shall be ground and polished. Stand shall be shipped knocked down with minimum assembly required. Assembly instructions shall be furnished with each unit.

Type I - Stand supported leg glides

Type II - Stand supported by four 2 inch electrically conductive casters.

Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard 376, and all other requirements of this commercial item description are met.

Contractor certification: The contractor shall certify that the product offered meets the salient characteristics of this description, and conforms to the producer's own drawings, specifications, standards and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements

Federal Food, Drug and Cosmetic Act - If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials - The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking - Unless otherwise specified, preservation, packaging and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
