COMMERCIAL ITEM DESCRIPTION

PAPER SHEETING, EXAMINATION-TREATMENT TABLES

The General Services Administration has authorized the use of this commercial item description.

This commercial item description describes an absorbent paper sheeting in the form of a roll, for the use on examining, physical therapy, urological x-ray tables, and other places where needed to provide a clean surface for each patient.

Salient characteristics: Paper Sheeting, Examination-Treatment Tables, bleached, Kraft, semi-creped (stretch factor minimum 3% and maximum of 11%) wet strength absorbent paper, 8.6 kg. basis weight plus 5% minus 5%; tightly wound on fiber/cardboard core.

Type I - 45 cm wide (plus or minus 0.32 cm), 152 m long)

Type II - 45 cm wide (plus or minus 0.32 cm) 46 m long (outer diameter of roll not to exceed 9 cm).

Type III - 45 cm wide (plus or minus 0.32 cm), 38 m long (outer diameter of roll not to exceed 9 cm). Core diameter to accommodate a 2 cm dowel).

Workmanship. The paper sheeting shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). For Type III, one package of 12 rolls of paper sheeting, as specified, constitutes one unit. The packaging for VA items (Types I and II) shall appear in the solicitation.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract of purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the government. The government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government, upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Tests. Tests shall be conducted to determine compliance with this commercial item description requirements. Where feasible, the same sample shall be used for the determination of two or more test characteristics.

Sampling for examination. Sampling for examination shall be conducted in accordance with MIL-STD-105, with an AQL of 4.0 (percent defective) and an inspection level of S-II. The unit of product for examination purposes shall be one roll of paper sheeting.

Sampling for tests. Sampling for tests (dimensional), shall be conducted in accordance with MIL-STD-105, with an AQL of 2.5 (percent defective) and an inspection level of S-1. The unit of product for test purposes shall be one roll of paper sheeting.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements

Federal Food, Drug and Cosmetic Act - If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by it subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its contractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials - The offeror/contractor is encouraged to use recovered material in accordance with Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking - Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
