COMMERCIAL ITEM DESCRIPTION

SUCTION SET, TRACHEAL

The General Services Administration has authorizd the use of this commercial item description.

This commercial item description describes a set with necessary components used for tracheal suctioning.

Salient characteristics. Suction Set, Tracheal, sterile, disposable. Set consists of: tracheal suction catheter, 20 to 22 inches long, with beveled tip, two or more eyes and fingertip control valve;

Type I - one (1) glove

Type II - two (2) gloves

Style A - with 120 ml pop-up solution basin, glove or gloves in non woven inner wrap, sets individually packed in a peel open pouch.

Style B - with waterproof towel, minimum 100 ml sterile saline solution (Sodium Chloride Irrigation, USP); packaged in a rigid peel open basin.

Size 1 - 14 Fr

Size 2 - 18 Fr.

Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard 376, and all other requirements of this document are met.

If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch-pound units, a request should be made to the contracting officer to determine if the product is acceptable.

The contracting officer has the option of accepting or rejecting the product.

Contractor certification: The contractor shall certify that the product offered meets the salient characteristics of this description, and conforms to the producer's own drawings, specifications, standards and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements

Federal Food, Drug and Cosmetic Act - If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials - The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking - Unless otherwise specified, preservation, packaging and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE. The following National Stock Numbers (NSNs) are covered by this document:

NSN	TYPE	SIZE	STYLE	NOMENCLATURE
6515-00-590-0754	I	1	A	SUCTION SET, TRACHEAL
