COMMERCIAL ITEM DESCRIPTION

BAG, URINE COLLECTION

The General Services Administration has authorized the use of this commercial item description.

This commercial item description describes a urine collection bag.

Salient characteristics: Bag, Urine Collection, sterile, closed system, disposable, plastic, leakproof, graduated. Bag is clear on side with graduations for fluid observation; reinforced to keep top of bag rigid and allow free flow of fluids from connecting tube to bag, nonwettable vent; hanging device (hook or cord) shall be capable of supporting bag when filled to capacity in vertical position without interfering with connecting tube. Connecting tube shall be clear, with provisions for attaching to bed linen (i.e., clip or rubber band with safety pin), adapter at distal end for attaching to the urethral catheter, sample port and protective cap. The bag shall have an emptying tube at the bottom with a tube holder that secures the emptying tube to the side of the bag and a leakproof shut-off clamp. The bag shall be packaged in such a manner that tubing is free of kinks and sharp bends when opened.

Size 1 - 2000cc capacity

Style A - 9/32 inch inside diameter, minimum 48 inches long connecting tube; 100 ml or 200 ml increment markings from 100 ml or 200 ml to 2000 ml; cord hanger

Style B - 9/32 inch inside diameter, minimum 48 inches long connecting tube; 100 ml increment markings from 100 ml to 2000 ml; one corner with 5 ml increment markings from 5 ml to 30 ml; hook hanger

Style C - 9/32 to 5/16 inch inner diameter, minimum 56 inches long connecting tube; anti-reflux valve; 100 ml increment markings from 100 to 2000 ml; hook and corder hanger/ Connecting tube attached at center top of bag.

Style D - 11/32 inch inner diameter, minimum 56 inches long connecting tube; anti-reflux valve; 200 ml increments markings from 200 ml to 2000 ml; hook hanger.

Size 2 - 4000 cc capacity

Style A - 11/32 inch inner diameter, minimum 56 inches long connecting tube; anti-reflux valve; 200 ml increments markings from 200 ml to 4000 ml; hook or cord hanger.

Workmanship. The bag shall be free from defects which detract from its appearance or impair its serviceability.

Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard 376, and all other requirements of this document are met.

If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch-pound units, a request should be made to the contracting officer to determine if the product is acceptable.

The contracting officer has the option of accepting or rejecting the product.

Contractor certification: The contractor shall certify that the product offered meets the salient characteristics of this description, and conforms to the producer's own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements

Federal Food, Drug and Cosmetic Act - If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials - The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation subpart 23.4 to the maximum extent practical.
