COMMERCIAL ITEM DESCRIPTION

DIAPER, ADULT'S

The General Services Administration has authorized the use of this commercial item description.

This commercial item description describes an absorbent, disposable diaper, flat (not contoured) to be worn by adult patients.

Salient characteristics: Diaper, Adult's, disposable, wingfolded. Comprised of a soft, white, 14 to 17 grams per square yard spunbond polypropylene, polyester or rayon, nonwoven top layer. Pad is grid embossed and adhered to a white embossed polyethylene waterproof backing, and is continually sealed on all 4 sides. Wingfolds are tacked in place with hot melt. Adhesive tape tabs on each side. Average pad weight 100 to 110 grams.

TYPE I pad must be capable of absorbing 200 ml of fluid.

TYPE II pad must be capable of absorbing 250 ml of fluid.

When tested by vertical absorbency test (place diaper in a level horizontal position, meter 200 ml (TYPE 1), 250 ml (TYPE II) of water onto center of diaper using a 1/8 inch (0.04 mm) ID funnel to direct the stream, allow to soak for 10 seconds, invert wet diaper into a vertical position by holding along the short dimension for 100 seconds, diaper fails if any water drips from the end of it).

TYPE I -	
PAD SIZE:	
WIDTH	- Minimum of 22-1/4" + 1" (56.51 cm + 2.54 cm)
LENGTH	- 36" ± 1" (91.44 cm ± 2.54 cm)
TAPE TABS SIZE:	
WIDTH	- 1-1/16" + 1/16" (2.70 cm + 0.159 cm)
LENGTH	- Minimum of 1-1/8" up to 3" (2.86 cm up to + 7.62 cm)

TYPE II - SUPERABSORBENT POLYMER AND ODOR REDUCING AGENT
PAD SIZE: WIDTH - 23" ± 1/2" (58.42 cm ± 1.27 cm) LENGTH - 36" ± 1" (91.44 cm ± 2.54 cm)
TAPE TABS SIZE: WIDTH - 3/4" + 1/4" (1.91 cm + 0.64 LENGTH - Minimum of 3" (7.62 cm) long

Type II, shall have an absorbent layer of cellulose fiber containing a super absorbent polymer and an odor reducing agent which shall be dispersed between the cellulose tissue.

Workmanship. The diapers shall be free from defects which detract from its appearance or impair its serviceability.

Unit. The unit of issue shall appear in solicitation.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the government. The government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government, upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defines as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Tests. Tests shall be conducted to determine compliance with this commercial item description requirements. Where feasible, the same sample shall be used for the determination of two or more test characteristics.

Sampling for examination. Sampling for examination shall be conducted in accordance with MIL-STD-105, with an AQL of 1.0 (percent defective) and an inspection level of S-1.

Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard No. 376, and all other requirements of this document are met.

If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch-pound units, a request should be made to the contracting officer to determine if the product is acceptable.

The contracting officer has the option of accepting or rejecting the product.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements

Federal Food, Drug and Cosmetic Act - If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by it subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its contractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials - The offeror/contractor is encouraged to use recovered material in accordance with Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.
