COMMERCIAL ITEM DESCRIPTION

WHEELCHAIR, FOLDING

The General Services Administration has authorized the use of this commercial item description as a replacement for VA Specification X-1529c, which is cancelled.

This commercial item description describes a wheelchair for general use by hospitalized patients and beneficiaries.

Salient characteristics. The wheelchair shall be an adult, manual, folding wheelchair with large wheels in the rear. The wheelchair shall be of tubular steel construction with chrome plated frame, flame resistant artificial leather or impregnated vinyl reinforced seat and back. The wheelchair shall be equipped with metal side panels, handbrakes on the large wheels, and wood or plastic base arm rests covered with flame resistant vinyl or shall be solid molded plastic. The seat shall be not less than 18 inches wide and not less than 16 inches deep and shall carry a 250 pound load without failure of the seat or chair. The wheelchair shall have push handles with handgrips and handrims on the rear wheels which shall have 36 spokes and be 24 inches in diameter, bicycle type. The front casters shall be free rolling, 8 inches in diameter by 1 inch, and swivel yoke mounted Tires front and rear shall be nonmarking gray solid rubber. Footrests shall be the fold-up type, stationary in angle to the wheelchair but adjustable in length. The wheelchair shall fold and open simply and quickly in one operation. The seat, back, and armrests shall be blue.

Metric products. Products manufactured to metric dimensions will be considered on an equal basis with those manufactured using inch-pound units, providing they fall within the tolerances specified using conversion tables contained in the latest revision of Federal Standard 376, and all other requirements of this document are met.

If a product is manufactured to metric dimensions and those dimensions exceed the tolerances specified in the inch/pound units, a request should be made to the contracting officer to determine if the product is acceptable

The contracting officer has the option of accepting or rejecting the product.

Contractor certification: The contractor shall certify that the product offered meets the salient characteristics of this description, and conforms to the producer's own drawings, specifications, standards and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract. A-A-30094A

Regulatory requirements

Federal Food, Drug and Cosmetic Act - If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials - The offeror/contractor is encouraged to use recovered material in accordance with Public Law 580, as amended and as implemented by Federal Acquisition Regulation 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking - Unless otherwise specified, preservation, packaging and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.
