INCH-POUND

MIL-A-15344J(NAVY)
AMENDMENT 2
2 November 1990
SUPERSEDING
AMENDMENT 1
18 September 1963

MILITARY SPECIFICATION

AMPLIFIER, SYNCHRO SIGNAL

This amendment forms a part of MIL-A-15344J(NAVY), dated 7 June 1963, and is approved for use by the Naval Sea Systems Command, Department of the Navy and is available for use by all Departments and Agencies of the Department of Defense.

PAGE 2

* 3.1: Delete and substitute:

"3.1 First article. When specified (see 6.2), a sample shall be subjected to first article inspection in accordance with 4.4."

PAGE 4

3.7.2, last line: Delete "or 7".

PAGES 6 AND 7

3.7.15, seventh sentence: Delete and substitute: "A single dial index shall be used. Either the dial index shall permit adjustment of approximately 3 degrees in either direction, or the dial shall permit such adjustment."

AMSC N/A FSC 5990

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

PAGE 7

3.8.2, last sentence: Delete and substitute: "When specified (see 6.2), a different complement of output synchros made up from those specified in 3.8.1, but limited to the following guidelines, shall be supplied in production synchro amplifiers in lieu of the complement specified in 1.2:

(a) No more than two 60-cycle synchros and no more than two 400-cycle synchros shall be installed in any one synchro amplifier.
(b) Only synchros transmitters or synchro differential transmitters, not both, shall comprise the output synchro complement of any one synchro amplifier."

Table V, columns headed "7G" and "7DG": Delete.

PAGE 8

4.4: Delete and substitute:

"4.4 First article inspection. First article inspection shall consist of the examinations and test specified in Table VI.

4.4: Table VI, title, delete "Qualification" and substitute "First article".

4.4.1: Delete and substitute:

"4.4.1 Samples for first article inspection. For first article inspection of individual types, the following samples will be required:

One type E - 1 and 36-speed unit (see 4.4.1.1)
One type E - 1, 18 and 648-speed unit
One type F - 1 and 36-speed unit (see 4.4.1.1)"

4.4.1.1: Delete and substitute:

"4.4.1.1 Where first article inspection is desired for both type E and F, 1 and 36-speed units, one synchro signal amplifier or either type may be submitted for both types, provided the following conditions are met:

(a) The enclosure is the same for the type E and type F units.
(b) The amplifier unit can be used for either the type E or the type F units interchangeably or by using a single integral switch to convert from one type to the other.

Check the source to verify that this is the current version before use.

(c) The construction of the synchro unit for the type E is of the same design and materials as the synchro unit for the type F.
(d) The unit passes all the test for one type operation and after conversion, see (b) above, passes the tests indicated with an asterisk for the other type operation.

* Footnote at bottom of page: Delete in its entirety:

PAGE 10

4.7.1.1, line 3: Delete "type 5CT" and substitute "synchro"; lines 4, 6, 7, 9, 12, and 15 delete "5CT"; line 22 delete "5CT" and substitute "60-cycle control transformer".

4.7.1.1.1, line 4: Delete "5CT".

4.7.1.1.2, line 10: Delete "5CT".

PAGE 11

Table VIII, column 2 for types E and F: Delete "7G" and substitute "6G"; column for 6 types E and F: Delete "14-37TR6" and substitute "9-37TR6".

PAGE 14

* 6.3: Delete and substitute:

"6.3 First article. When first article inspection is required, the contracting officer should provide specific guidance to offerors whether the item(s) should be a preproduction sample, a first article sample, a first prroduction item, a sample selected from the first production items, a standard production item from the contractor's 3.1, and the number of items to be tested as specified in 4.4. The contracting officer should also include specific instructions in acquisition documents regarding arrangements for examinations, approval of first article test results, and disposition of first articles. Invitations for bids should provide that the Government reserves the right to waive the requirement for samples for first article inspection to those bidders offering a product which has been previously acquired or tested by the Government, and that the bidders offering such products, who wish to rely on such production or test, must furnish evidence with the bid that prior Government approval is presently appropriate for the pending contract. Bidders should not submit alternate bids unless specifically requested to do so in the solications."

* 6.3.1: Delete in its entirety.

NOTE: The margins of this amendment are marked with an asterisk to indicate where changes (additions, modifications, corrections, deletions) from the previous amendment were made. This was done as a convenience only and Government assumes no liability whattsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations and relationship to the last previous amendment.
