INTERIM COMMERCIAL ITEM DESCRIPTION

POLARISCOPE, OPHTHALMIC LENS

The General Services Administration has authorized the use of this interim commercial item description which was developed by the Defense Personnel Support Center, Directorate of Medical Materiel, DPSC-RST, 2800 South 20th Street, Philadelphia, PA, 19101, based on currently available technical information.

This interim commercial item description covers an instrument used for detecting strains introduced into ophthalmic lenses by the mounting process or by non-chemical heat treatment method.

Salient characteristics:

The unit shall be constructed of metal housing which houses a low wattage light bulb (rated for 115 volt, 60 Hz AC), with a pair of polarized lenses and an on-off switch. The base of the housing shall have rubber feet which prevents sliding from a table top.

Size of the polarized lenses shall have visual area large enough to view a 52 mm glass lens when placed on the light path. The degree and type of strain being exerted on the lens shall be revealed by the light pattern.

The light shall be sufficiently illuminated for viewing either a dark sunglass lens or clear lens.

The electrical components of the instrument shall be in accordance with the applicable standards of the Underwriters Laboratories and the National Electrical Code. A six-foot electrical wire shall be attached, with a 3-prong plug.

Workmanship. The polariscope shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Each(EA). One polariscope, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Number is covered by this document:
