INTERIM COMMERCIAL ITEM DESCRIPTION

AMINO ACIDS AND DEXTROSE INJECTION PACK

The General Services Administration has authorized the use of this Interim Commercial Item Description which was developed by the Defense Personnel Support Center, Directorate of Medical Materiel, DPSC-RST, 2800 South 20th Street, Philadelphia, PA 19101, based upon currently available technical information.

Salient Characteristics:

Shall be Amino Acids and Dextrose Injection.

Shall be a sterile, non-pyrogenic, hypertonic injection without electrolytes for intravenous administration.

Shall contain Amino Acids 8.5 percent within the applicable assay limits for the injection.

Shall contain Dextrose 50.0 percent in accordance with the requirements of USP monograph for Dextrose Injection, USP.

The immediate container shall be a single dose, transparent, dual chamber, flexible plastic container. The upper chamber shall contain 500 ml of 8.5 percent crystalline amino acid injection and the lower chamber shall contain 500 ml of 50.0 percent Dextrose Injection, USP.

The immediate container shall have three permanently attached outlet ports. The outlet port in the upper chamber and one outlet port in the lower chamber shall have a rubber latex sleeve or natural rubber stopper attached and shall be suitable for an injection site.

AMSC/NA FSC 6505

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Check the source to verify that this is the current version before use.

The second outlet port in the lower chamber shall be force fitted with a suitable sterility protector and shall accept and retain the piercing device and make a proper leakproof fit with the following stocklisted Intravenous Administration Sets which shall be compatible with the injection cover by this document:

6515-00-115-0032	6515-00-140-0888
6515-00-185-5158	6515-00-484-0484
6515-01-082-1021	6515-01-105-0614
6515-01-153-4703	6515-01-153-5669

The contents of upper and lower chambers shall be separated by a removeable clamp. When the clamp is opened or removed, the contents of the upper chamber can be squeezed into the lower chamber to complete preparation of the final IV solution prior to administration.

The plastic container shall be designed to facilitate an upward position during addition of medication through the injection set.

The top end of the plastic container shall have a heavy gauge plastic hanger strap which is an integral part of the body of the container and shall have a slot in the center of the hanger strap.

The integral hanger shall be of sufficient strength to bear the weight of the filled container with the attached IV administration set.

The plastic container shall be supplied in an overpouch which shall serve as a water vapor barrier.

Workmanship. The Injection shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG). One package containing 6 plastic containers with overpouches, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

NOTE: The following National Stock Number is covered by this document:

NSN	ITEM IDENTIFICATION
6505-01-221-1497	AMINO ACIDS AND DEXTROSE INJECTION PACK, Single Dose, Dual Chamber, Upper Chamber Contains 500 ml of 8.5% Crystalline Amino Acid Injection, Lower Chamber contains 500 ml of 50% Dextrose Injection, 1000 ml, 6s

INSTRUCTIONS: In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)*, and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation, was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

NOTE: This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document*(s)* or to amend contractual requirements.
