COMMERCIAL ITEM DESCRIPTION

SUPPORT, CERVICAL

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers requirements for a medium size cervical collar, designed to protect and stablize the neck portion of the spinal column.

Salient characteristics:

The cervical support shall be a medium size collar, 20-1/2 inches (52.07cm.) long and 4 inches (10.16cm.) wide, fabricated from polyurethane soft foam filler with a stockinette cover.

The support shall provide adequate protection and stabilization of the neck portion of the spinal column

Each cervical support shall have a hook and pile side closure designed to permit application with minimal amount of movement of the patient's head. There shall also be a soft section or molded depression in the center of the support to reduce pressure on the thyroid cartilage.

The collar shall be contoured high on both ends and shallow in the center to prevent lateral movement of the head and to provide support under the chin.

Workmanship. The cervical support shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Each (EA). One cervical support, as specified, constitutes one unit.

AMSC N/A FSC 6515

DISTRIBUTION STATEMENT A. Approved for public release; distribution is unlimited.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Tests. Tests shall be conducted to determine compliance with specification requirements. Where feasible, the same sample shall be used for the determination of two or more test characteristics.

Sampling for tests. Sampling for tests shall be conducted in accordance with MIL-STD-105 and as specified herein. The unit of product for test purposes shall be one cervical support.

TABLE I. Sampling for examination.

	Inspection level	AQL (defects per hundred units)
For visual examination		
Major defect	II	1.0
Total defects (Major and minor combined)	II	4.0
For dimensional defects	S-1	2.5

TABLE II. Classification of Defects *

Classification	Defects
Major	
101	Any component part missing, broken or otherwise not usable.
102	Any hole, cut, tear or mend.
103	Unit does not conform to salient characteristics.
Minor	
201	Identification marking not complete, permanent, and legible.
202	Finish not free of spots, stains or any discoloration of the cloth.
203	Any component part not secured in place.

*Examination shall not be limited to the classified possible defects listed herein.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

INSTRUCTIONS: In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)*, and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation, was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

NOTE This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
