# COMMERCIAL ITEM DESCRIPTION

## SUPPORT, ACROMIOCLAVICULAR

The General Services Administration has authorized the use of this commercial item description.

This commercial item description covers requirements for a universal size, leather with felt padding, acromioclavicular support. The support shall include multiple straps and buckles for adjustment from youth to adult sizes.

Salient characteristics:

The acromioclavicular support shall be a universal size, leather shoulder support suitable for immobilization of a dislocated shoulder (scapula and clavicle), by providing upward pressure on arm from elbow to dislocation site.

The support shall be fabricated of felt padding bonded to leather to provide comfort and support to the patient during use. It shall contain multiple straps and buckles for adjustment from youth to adult sizes.

Each acromioclavicular support shall be individually packaged to keep item clean. Packaging and labeling shall be that normally furnished by the supplier as commercial practice.

Workmanship. The shoulder support shall be free from defects which detract from its appearance or impair its serviceability.

Unit. Package (PG) One shoulder support, as specified, constitutes one unit.

Quality Assurance Provisions.

Responsibility for inspection. Unless otherwise specified in the contract or purchase order, the contractor is responsible for the performance of all inspection requirements as specified herein. Except as otherwise specified in the contract or purchase order, the contractor may use his own or any facilities suitable for the performance of the inspection requirements specified herein, unless disapproved by the Government. The Government reserves the right to perform any of the inspections set forth in the specification where such inspections are deemed necessary to assure supplies and services conform to prescribed requirements.

Records. Records of examinations and tests performed by or for the contractor shall be maintained by the contractor and made available to the Government upon the Government's request, at any time, or from time to time, during the performance of the contract and for a period of three years after delivery of the supplies to which such records relate.

Inspection. Inspection, as used herein, is defined as both examination (such as visual or auditory investigation without the use of special laboratory appliances or procedures) and testing (determination by technical means of physical and chemical properties) of the item.

Sampling for tests. Sampling for tests shall be conducted in accordance with MIL-STD-105 and table I, as specified herein. The unit of product for tests purposes shall be one acromioclavicular support, as specified.

TABLE I. Sampling for examination

| | Inspection level | AQL (defects per hundred units) |
|---|---|---|
| For visual examination | | |
| Major defects | II | 1.0 |
| Total defects (Major and Minor combined) | II | 4.0 |
| For dimensional defects | S-1 | 2.5 |
| All tests | S-2 | 1.5 |

Examination. The acromioclacicular support shall be examined to determine compliance with the requirements of this classification of defects in table II.

| 203 | Thread ends not trimmed, loose threads not removed. |

*Examination shall not be limited to the classified possible defects listed herein.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U.S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580, as amended, and as implemented by Federal Acquisition Regulation Subpart 23.4 to the maximum extent practical.

**INSTRUCTIONS**: In a continuing effort to make our standardization documents better, the DoD provides this form for use in submitting comments and suggestions for improvements. All users of military standardization documents are invited to provide suggestions. This form may be detached, folded along the lines indicated, taped along the loose edge *(DO NOT STAPLE)*, and mailed. In block 5, be as specific as possible about particular problem areas such as wording which required interpretation, was too rigid, restrictive, loose, ambiguous, or was incompatible, and give proposed wording changes which would alleviate the problems. Enter in block 6 any remarks not related to a specific paragraph of the document. If block 7 is filled out, an acknowledgement will be mailed to you within 30 days to let you know that your comments were received and are being considered.

*NOTE*. This form may not be used to request copies of documents, nor to request waivers, deviations, or clarification of specification requirements on current contracts. Comments submitted on this form do not constitute or imply authorization to waive any portion of the referenced document(s) or to amend contractual requirements.
