DATA ITEM DESCRIPTION (DID)

Title: CONFIGURATION DATA MANAGEMENT DATABASE-OPEN ARCHITECTURE (CDMD-OA) CDMD-OA METRIC REPORT

Number: DI-MGMT-81776 **Approval Date**: 20090826
AMSC Number: N9079 **Limitation**:
DTIC Applicable: N/A **GIDEP Applicable**: N/A
Office of Primary Responsibility: SEA 04L122

Use Relationship: This report will be used to identify cost per transaction and efficiencies of the Configuration Data Manager (CDM) in processing those transactions.

This Data item Description (DID) contains the format and content preparation instructions for the data product generated by a specific and discrete task requirement as delineated in the contract.

Requirements:

1. Format. The Report shall be presented in the Contractor format.

2. Content. The SCLSIS Metric Report shall contain results of a Query of transaction data obtained from the CDMD-OA database reflecting the following:

   a. Identity of the Configuration Data Manager (CDM)
   b. Total of Monthly transactions
   c. Total of Backlog of transactions
   d. Add Transaction
   e. Change Transactions
   f. Delete Transactions
   g. Reason for backlog if known
   h. Totals as well as source of transactions (ex., ship, ILO, DBR), processing rate and record type (RT2, 3, 4) breakouts.
   i. Include general analysis and explanation of research performed identifying and explaining anomalous readings.

3. Media Requirement. The media for this report shall be in Excel 97-2003.

4. End of DI-MGMT-81776
