DATA ITEM DESCRIPTION

Title: Technical Manual Cost Report

Number: DI-TMSS-81811
AMSC Number: N9134
DTIC Applicable: N/A
Office of Primary Responsibility: SH/SEA 04L2
Applicable Forms: N/A

Approval Date: 20100525
Limitation: N/A
GIDEP Applicable: N/A

Use/relationship: The Technical Manual (TM) Cost Report provides the Government with the necessary budget information that program managers can use for planning, evaluation, and future TM development cost estimating.

This Data Item Description (DID) contains the format and content preparation instruction for the data product generated by the specific and discrete task requirement as delineated in the contract.

This data item shall not be procured when this information is provided by any other report supplied by the same contractor.

Requirements:

1. Format. The TM Cost Report shall be presented in the contractor's format.

2. Content. The TM Cost Report shall contain the charges for each new TM or revision, as applicable. The cost information for TMs shall be limited to the effort and material needed to produce the manual from source data. The report shall also include the following:

    a. Submittal date for the report.

    b. Name and address of contractor and contract number.

    c. Applicable Technical Manual Contract Requirement (TMCR) number(s), TM identification number(s), and title(s) of the TM(s) covered within the report.

    d. Document Type Definition (DTD) Public Identifier(s) used to develop the TM(s) covered by the report.

    e. Total number of pages or screens of text in the TM(s).

    f. Total number of illustrations (including multiple sheets) in the TM(s).

    g. Total number of direct man-hours expended for each labor category.

    h. Listing of labor categories used and the associated labor rates.

    i. Listing and cost of non-labor expenditures.

Check the source to verify that this is the current version before use.

j. Total cost of contractor quality assurance (QA) efforts, broken out by support of Government QA functions and contractor TMQA program efforts.

2.1 The report shall contain any research and liaison cost(s) to obtain basic source data for new TMs and revisions. Research, experimental, or development work that led to such basic data required for the development of an end item shall not be included. TM cost (information) shall not be duplicated in relation to other contractor charges associated with the other basic engineering data or logistic management information already being collected.

3. End of DI-TMSS-81811.
