COMMERCIAL ITEM DESCRIPTION

TOWEL, HAND, GREEN, HUCK, COTTON

The General Services Administration has authorized the use of this commercial item description in preference to Federal Specification DDD-T-531.

This commercial item description covers a vat dyed grayish-green, hand towel of cotton huck cloth suitable for use in surgical procedures.

Salient Characteristics:

The huck towel shall be a colorfast, uniformly vat dyed grayish-green hand towel, finished 17 inches wide and 36 inches long. A minus tolerance of 1 inch and any plus tolerance will be permitted. The huck towel shall be fabricated from thoroughly cleaned cotton. The weight of the finished towels shall be a minimum of 2.6 lbs./dozen. The finished towel may have either selvage or hemmed sides or one of each. Hems shall be not less than 1/4 inch and the corners of hems shall be backstitched not less than 1/2 inch.

Performance. After 25 launderings, the weight loss shall not exceed 10% and there shall be no obvious signs of deterioration, i.e. frayed selvage, broken seams and ruptured fibers. A laundering is defined as washing in a commercially available domestic washing machine using the normal wash cycle. Wash and rinse with moderately hot (110-120^{0}F) water using commercially available laundry soap or detergent. Tumble dry in a commercially available domestic dryer.

Workmanship. The towels shall be free from defects which detract from their appearance or impair serviceability. Finished towels shall conform to the quality and grade of product established commercially for towels.

Unit. Each (EA). Each towel, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices, and is the same as the product sold in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Check the source to verify that this is the current version before use.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

The following National Stock Number is covered by this document:

7210-00-299-9610

Ordering data (Intermediate/exterior package quantities and labeling and marking must be specified in the contract and/or order).
