COMMERCIAL ITEM DESCRIPTION

GOWN, PATIENT EXAMINING

The General Services Administration has authorized the use of this commercial item description in preference to Military Specification MIL-G-37300.

This commercial item description covers the requirements for one type and size of a disposable, nonwoven fabric, patient examining gown for use by patients undergoing physical or X-ray examination or treatment.

Salient characteristics:

The patient examining gown shall be knee-length, sleeveless, and collarless having an overlapping back closure with a separate wrap-around tie belt, in pastel shades of blue, green grey, or white in either a striped effect or solid color. The nonwoven fabric shall be soft and have a good drape. The fabric shall be non-irritating, nontoxic and shall not have an objectionable odor. The fabric shall have a minimum weight of 39 grams per square yard when tested using ASTM D1910-Method 38, and a minimum breaking strength of 2.6 pounds in each direction when tested using ASTM D1682-Method 16 (Grab-CRT Tester). The fabric shall meet NFPA No. 702 requirements for Class 2 textiles. The seam strength of the glued or sewn seams shall not be less than 2.6 pounds, when tested using ASTM D1683-Method 78.

The gown shall have the following dimensions:

Overall Length	45" ± 2"
Width	28" ± 2"
Belt Length	60" ± 10"
Width (Nominal)	1-7/8"
Neck Opening	
Width	8" ± 1"
Depth ("V" Neck)	7" ± 1-1/2"
(Circular)	4" ± 1"
Sleeve Opening	11" ± 2-1/4"

Workmanship. The finished gowns shall be free defects which detract from their appearance or impair their serviceability.

Unit. Package (PG). One package containing one hundred gowns bundled and banded together in groups of ten, as specified, constitutes one unit.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of this description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices, and is the same as the product sold in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Federal Food, Drug and Cosmetic Act. If the product covered by this document has been determined by the U. S. Food and Drug Administration to be under its jurisdiction, the offeror/contractor shall comply, and be responsible for compliance

by its subcontractors/suppliers, with the requirements of the Federal Food, Drug and Cosmetic Act, as amended, and regulations promulgated thereunder. In addition, the offeror/contractor shall comply, and be responsible for compliance by its subcontractors/suppliers, with the requirements of all other applicable Federal, State, and local statutes, ordinances, and regulations.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

For information only. The following products, as of the date of this document, are purported by the following companies to meet the salient characteristics of the item described herein:

Kimberly-Clark
General Health Enterprises
Disposable Profiles, Inc.

NOTE: The following National Stock Number is covered by this document:

6532-00-421-7828
