COMMERCIAL ITEM DESCRIPTION

FLASK, ERLENMEYER (Graduated)

The General Services Administration has authorized the use of this commercial item description in preference to Class 1, Type IV, Style 1, flasks, of Federal Specification NNN-F-240D.

This commercial item description covers graduated borosilicate glass Erlenmeyer flasks with narrow mouths, suitable for laboratory purposes.

Salient characteristics:

Shall be Erlenmeyer flasks with narrow mouths and reinforced lips having specified graduated capacities.

Shall be fabricated of borosilicate glass conforming to type I, class A, of ASTM E 438.

Shall have broad flat bottoms, and conical sides which extend inwardly from the bottom, and terminate in the form of short cylindrical necks. Shall include a suitable marking area in the form of a roughened surface or an enameled spot.

The mouths of the flasks shall have beaded or tooled glass rims, and shall take commercially designated rubber stopper sizes specified in table I. When specified by the procurement activity, rubber stoppers shall be supplied with the flasks.

Shall include graduation markings as specified in table I, having a volumetric accuracy of plus or minus 5 percent of the overall capacity.

TABLE I. Graduations and rubber stopper size.

Overall capacity milliliter (ml)	Takes rubber stopper size	Graduated range (ml)	Graduated interval(ml)
25	0	10 to 25	5
50	1 or 2	20 to 50	10
125	4 or 5	50 to 125	25
250	6	50 to 200	25
500	7	100 to 500	50
1000	9	250 to 1000	50
2000	10	600 to 1900	200
4000	10	1000 to 4000	500
6000	10	1500 to 6000	500

Workmanship. The Erlenmeyer flasks shall be free from defects which detracts from their appearance or impairs their serviceability.

Unit. Each (EA). One flask as specified, constitutes one unit.

.eference standards. Where standards are referenced herein, the issue of that standard in effect on the date of solicitation shall be used to determine compliance with stated requirements.

Contractor certification. The contractor shall certify that the product offered meets the salient characteristics of the description and conforms to the producers' own drawings, specifications, standards, and quality assurance practices, and is the same as the product sold in the commercial marketplace. The Government reserves the right to require proof of such conformance prior to first delivery and thereafter as may be otherwise provided for under the provisions of the contract.

Regulatory requirements.

Recovered materials. The offeror/contractor is encouraged to use recovered material in accordance with Public Law 94-580 to the maximum extent practical.

Preservation, packaging, packing, labeling, and marking. Unless otherwise specified, preservation, packaging, and packing shall be to a degree of protection to preclude damage to containers and/or contents thereof under normal shipping conditions, handling, etc., involving shipment from the supply source to the receiving activity, plus reshipment from receiving activity, and shall conform to applicable carrier's rules and regulations. Intermediate and exterior package quantities and labeling and marking shall be as specified in the contract and/or order.

For information only. The following products, as of the date of this document, are purported by the following companies to meet the salient characteristics of the items described herein:

	CATALOG NUMBER	
Capacity (ml)	Corning Glass Works	Kimble
25	4980 - 25	26500 - 25
50	4980 - 50	26500 - 50
125	4980 - 125	26500 - 125
250	4980 - 250	26500 - 250
500	4980 - 500	26500 - 500
1000	4980 - 1L	26500 - 1000
2000	4980 - 2L	26500 - 2000
4000	4980 - 4L	26500 - 4000
6000	4980 - 6L	26500 - 6000
