DATA ITEM DESCRIPTION

Form Approved
OMB No. 0704-0188

Public reporting burden for this collection of information is estimated to average 110 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Washington Headquarters Services, Directorate for Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302, and to the Office of Management and Budget, Paperwork Reduction Project (0704-0188), Washington, DC 20503.

1. TITLE
WORK UNIT CODE ITEM LISTING

2. IDENTIFICATION NUMBER
DI-ILSS-81282

3. DESCRIPTION/PURPOSE

3.1. The Work Unit Code (WUC) item listing provides data on all repairable assemblies, subassemblies, and maintenance significant items for use by the Government in developing WUC manuals.

4. APPROVAL DATE (YYMMDD)
92/08/18

5. OFFICE OF PRIMARY RESPONSIBILITY (OPR)
AS/NAWC AD

6a. DTIC APPLICABLE

6b. GIDEP APPLICABLE

7. APPLICATION/INTERRELATIONSHIP

7.1 This Data Item Description contains the format and content preparation instructions for data resulting from the work task described by paragraph 5.1 of MIL-STD-780.

7.2 This DID is applicable to those contracts which provide for delivery of aeronautical equipment to the Navy.

7.3 Subsystems and components common to other and end articles, having WUC's

(Continual on page 2)

APPROVAL LIMITATION

9a. APPLICABLE FORMS

9b. AMSC NUMBER
N6777

10. PREPARATION INSTRUCTIONS

10.1. Reference documents. The applicable issue of the documents cited herein, including their approval dates and of arty applicable amendments, notices and revisions, shall be as specified in the contract.

10.2. Content. A WUC item listing shall contain, in functional breakdown order, all systems subsystems, assemblies, components, and significant parts of the prime contract end article, and each article of peculiar support equipment. A functional system shall consist of those units which makeup a system without regard to whether the units are hydraulic, electrical, pneumatic, electronic, or mechanical in nature. When the system (first two 2 digits of a WUC) is determination, e. g., System Code 13. Alighting Launching, the listing should be in support of the drawing package top down breakdown.

BLOCK 7. APPLICATION/INTERRELATIONSHIP (Continued)

already assigned, shall be included and identified wit-h the previously assigned WUC's identified

7.4 This DID supersedes DI-M-2070

Block 10. Preparation Instructions (Continued)

- -

10.3 Format. Information provided for each item listed will be as follows:

a. WUC - a recommended WUC provided in accordance with MIL-STD-780.

b. Indenture will be provided by any method, for example ALPHA method, A, B. C. B. A

c. Nomenclature will be listed as on the applicable engineering drawings. Abbreviations used should be standard abbreviations when standards exist. Any nonstandard abbreviations used will be defined in the foreword to the listing

D. Model/Type/Part Reference Designation - Assigned designator when no part of the nomenclature will be given. Examples of model/type designator are AN/APN202., C8752/APN202, F110-GE-400. Examples of Reference Designations are lA1, lAIA1, 1A1A2.

e. Part Number - Part number of the item as listed on the engineering drawing will be included in the listing.

f. Commercial and Government Entity (CAGE) - The Cage will be provided for each item listed.

g. Source Maintenance & Recoverability (SM&R) Code - A recommended AM&R code in accordance with existing procedures.

h. Remarks - Show any additional information relating to the item listed. Examples of that which would be listed includes alternate part number of Logistic Support Analysis Control Numbers (LCN's) if different from the WUC. Information on codes assigned to Subsystems and components common to other end articles with WUC's already assigned shall be obtained from Naval Air Technical Services Facility (NATSF), 700 Robbins Avenue, Philadelphia, PA 19111-5097 (Code 33)

i. Codes will be shown to indicate that an item or data related to the item has been added, changed or deleted. Also, accessory record and or Logistic Support Analysis requirements will be shown by codes as follows:

A- Added new item
C- Change existing item
D- Deleted part of item data
M- LSA will be required
R- Repairable item

j. The listing will include a cover sheet and a foreword. The cover will contain the title of the document, contract number, contractors name and address, identification of department generating the list, and date of issue. The foreword will briefly explain the purpose of the list and include a glossary of nonstandard abbreviations or definitions when different from MIL-STD-780.
