DATA ITEM DESCRIPTION

Form Approved
OMB No. 0704-0188

Public reporting burden for this collection of information is estimated to average 110 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Washington Headquarters Services, Directorate for Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302, and to the Office of Management and Budget, Paperwork Reduction Project (0704-0188), Washington, DC 20503.

1. TITLE	2. IDENTIFICATION NUMBER
Target/Aircraft Telemetry Data Report	DI-MISC-81304

3. DESCRIPTION/PURPOSE

3.1 The Target/Aircraft Telemetry Data Report is the reduction of computer data recorded by the Target Tracking Control System (TTCS) during a target mission flight.

3.2 The report provides Target/Aircraft flight data including flight overlays, TTCS mission tapes and recordings for purposes of analysis.

4. APPROVAL DATE (YYMMDD)	5. OFFICE OF PRIMARY RESPONSIBILITY (OPR)	6a. DTIC APPLICABLE	6b. GIDEP APPLICABLE
930128	A/MICOM		

7. APPLICATION/INTERRELATIONSHIP

7.1 This Data Item Description (DID) contains the format and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract.

8. APPROVAL LIMITATION	9a. APPLICABLE FORMS	9b. AMSC NUMBER
		A6880

10. PREPARATION INSTRUCTIONS

10.1 Format. The Target/Aircraft Telemetry Data Report format shall be contractor selected unless effective presentation would be degraded, the initially used format arrangement shall be used for all subsequent submissions.

10.2 Content. The Target/Aircraft Telemetry Data Report shall contain all records, recordings, overlays, and TTCS telemetry tapes documenting specific flights as required by the Technical Representative or Technical Representative's Representative (TR/TRR) and the applicable Statement of Work. The TTCS telemetry tapes shall be properly annotated on the first sheet to identify the functions represented in each column, along with a Post Flight Data Reduction/Analysis which includes the following:

10.2.1 Mission configuration. This description includes identification of the target type, serial number, TTCS used identified by serial number, date and site of flight, and program being supported.

Check the source to verify that this is the current version before use.

Block 10, PREPARATION INSTRUCTIONS (Continued)

10.2.2 Performance synopsis. A narrative discussion of the flight as it progressed through to termination, based on the discrete and analog telemetry data generated by the TTCS.

10.2.3 Discrete data format. Identify by telemetry channel the function and scale represented.

10.2.4 Analog data format. Identify by telemetry channel the function and scale represented.

10.2.5 Data qualification. Information of specific characteristics which would clarify the report data (e.g., discussion of the Time tag as ZULU time, analog channel accuracy, implications of plus and minus signs in the data, etc.).
